## POLICEMEN SEE WOMAN MURDER MAN

### REFUSES TO REVEAL MOTIVE FOLLOWING ARREST FOR MURDER

#### Officers Called To House Witnesses To Shoot- ing

TOLEDO, O., Sept. 25.—In the presence of two policemen a woman shot and killed a man in her home here today.

The fatal shooting climaxed what police are inclined to believe as a lovers' quarrel, although the woman, Mrs. Marjorie Nye, who is held in the Safety Building on a charge of suspicion, refused to discuss her motive in the slaying of Arthur Gingerich, 35, alias the "Frog."

Mrs. Nye, mother of two children, who were not at home, admitted firing the shots were ended Gingerich's life.

Patrolmen Charles Crane and Casimir Krolewski, who witnessed the shooting and whose lives were endangered, had gone to the house on complaint of a disturbance there.

Just as the policemen entered the hallway the door of Mrs. Nye's apartment was opened, and Gingerich, bleeding from a wound in the neck, staggered out.

"Take me to a hospital," he begged the officers.

Scarcely had he finished speaking, the patrolmen said, when Mrs. Nye appeared at the door, and fired point-blank at Gingerich, the bullet entering his abdomen. Police assumed one shot had been fired before their arrival.

The house gave mute evidence of the struggle which led to the fatal shooting. Rugs and furniture were disarranged, and the floor of the living room, dining room, and kitchen was stained with blood.

Detectives say Mrs. Nye admitted having had friendly relations with Gingerich for three years. She refused to discuss incidents which caused the fatal quarrel, and police say Gingerich gasped out just his fault just before he died.

The victim of the shooting is said to have a wife and three children, living in Napoleon, O.

HOOPER WILL MAKE  
DIRECT TRIP SOUTH  
FOR TENNESSEE TALK

Only One Outside Visit  
Planned By Can-  
didate.

WASHINGTON, Sept. 25.—Herbert Hoover will make a swift direct trip to Elizabethton, Tenn., next week for his "southern campaign" speech, according to an announcement today from personal headquarters of the Republican presidential candidate.

The nominee and his personal party will leave Washington Friday October 5, pausing Saturday at Bristol, Tenn.-Va. for a rear platform appearance.

Arrangements have been made to accommodate 15,000 persons at the first political rally a Republican presidential candidate has staged in the solid south in recent years. The speech had to be held in the afternoon to enable farmers to get back to their homes before sunset.

Special trains are being run from four adjoining southern states.

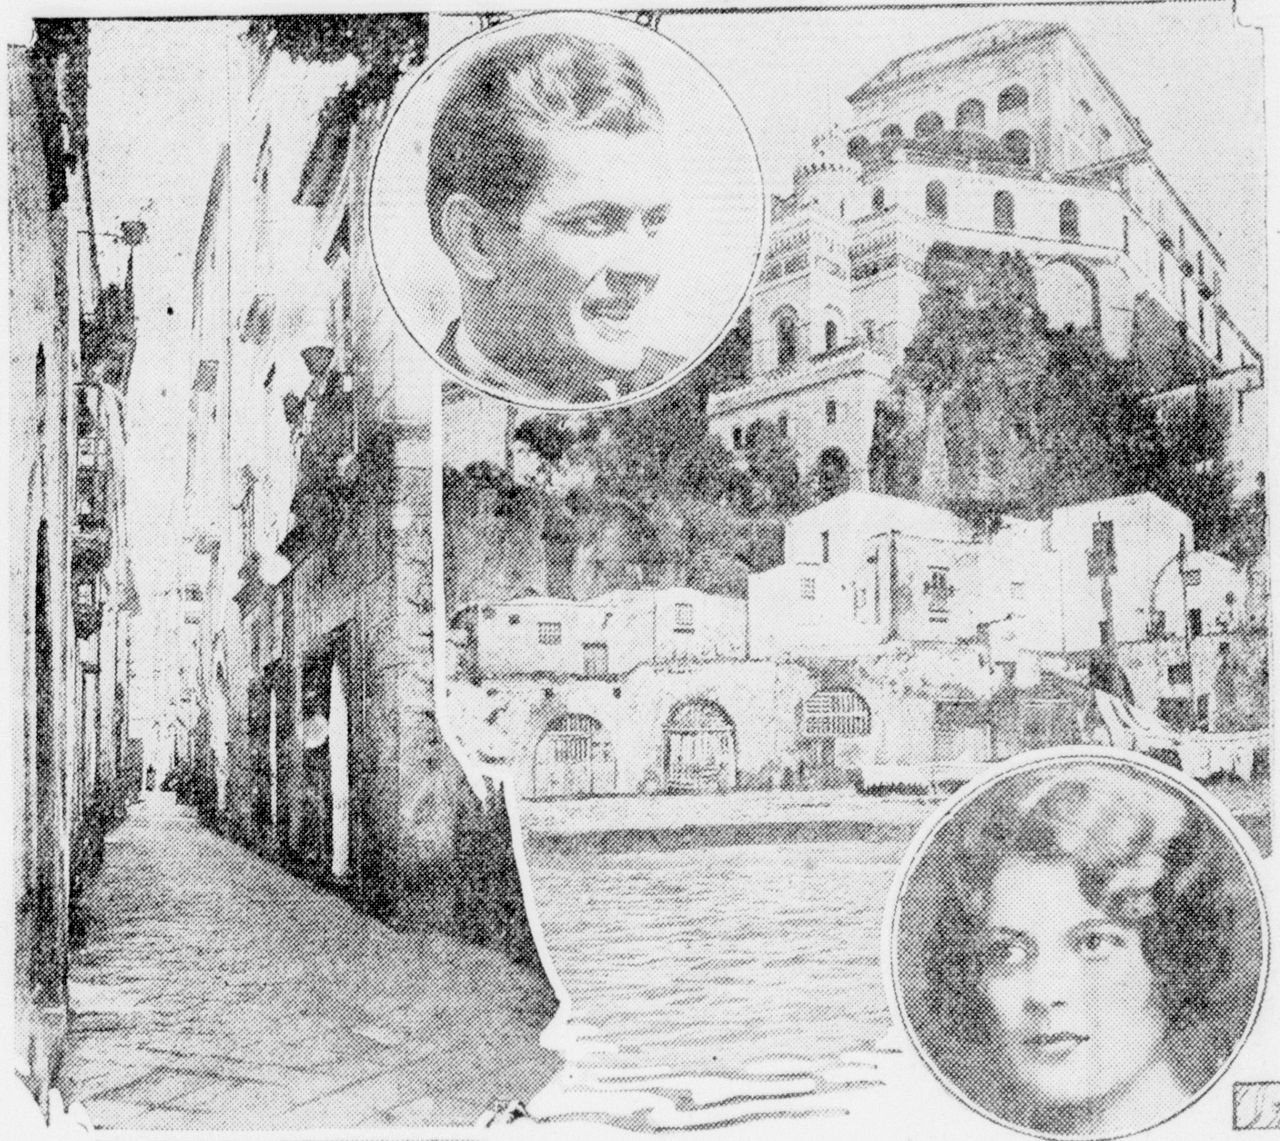

Concluding his speech, Hoover will motor to Johnson City, forty miles away, to visit a large veterans' hospital. He will deliver a five-minute speech to the veterans, boarding his special train for the return trip to Washington about 6 p. m. E. S. T. He will arrive back here early Sunday.

May Head Vets

Roy Hoffman, of Oklahoma, one of the organizers of the American Legion, both state and national, is being boomed for national commander of the organization. He holds the rank of brigadier general.

### Where Gene and Polly Will Wed

In a romantic little Catholic chapel in Sorrento, across the bay from Naples, Gene Tunney, ex-king of the prize ring, who gave up the plaudits of the mob to please a maid, and Miss Josephine (Polly) Lauder, heiress to a \$50,000,000 fortune, will be married about

October 5, according to advices from abroad. Right, the beautiful old-world town situated on rock promontory overlooking the Mediterranean; left, one of the narrow, crooked streets of the quaint old town.

## FOUR YOUNG PEOPLE KILLED AS SPEEDING AUTO OVERTURNS

### CORONER SAYS AUTO TRAVELED TOO FAST TO NEGOTIATE TURN

#### Victims Crushed In Wreckage Under Heavy Truck

CINCINNATI, O., Sept. 25.—Two Bellefontaine men, a Danville, Ky., girl and a Cincinnati girl were killed here last night when an auto, speeding at sixty miles an hour, swerved, overturned twice and rolled under a heavy truck.

The dead: Austill Ritchie, 18, and Wilbur Ritchie, 22, brothers, Bellefontaine, Ohio.

May McDonald, 19, Danville, Ky., and June Bastaine, 17, Cincinnati. Speeding was the cause of the accident, Coroner F. C. Swing said.

"The death car was speeding so fast that the driver could not make the bend," Dr. Swing said, "then when the driver saw the trailer truck ahead of him he attempted to swerve to the right. The auto was going too fast and it turned over twice on the second roll going under the truck."

The impact was so great that the top of the sedan was torn off and then crushed under the wheels of the heavy truck and trailer.

All four were caught in the car and their bodies mangled. One victim was breathing slightly when placed in the patrol but died very shortly after reaching the hospital.

### LACKS AUTHORITY IN CLEVELAND CASE

COLUMBUS, O., Sept. 25.—State weights and measures division is without power to act in the investigation of adulteration of gasoline discovered in Cleveland, according to W. D. Leach, chief of the division.

The state tax commission, however, will proceed to check up on the gasoline content from a taxation standpoint, it was said.

#### KILLED BY AUTO

CLEVELAND, O., Sept. 25.—Returning home from a night job Mrs. Julia Gorski, 28, the mother of two small children early today stepped in front of an auto and was killed.

#### SALE DATES RESERVED

Gray W. McCampbell, Nov. 1.

### UNITED STATES MAY OFFER LIMITATION SUBSTITUTE PLAN

#### May Be Included In Answer To Anglo- French.

WASHINGTON, Sept. 25.—A suggestion that the United States offer a substitute program from limitation of cruisers and submarines in place of the proposed Anglo-French naval plan, is being considered in official circles, it was learned authoritatively today.

Whether such a suggestion will be incorporated in the note the state department soon will send to London and Paris has not been determined. The proposal has not been submitted to President Coolidge, it was said, and naval officials meantime are reported as viewing it with disfavor.

Details of the projected note were discussed at a lengthy conference Secretary of State Kellogg held with Secretary of Navy Willard, Admiral Charles F. Hughes, chief of naval operations, and Admirals Hilary P. Jones and Andrew T. Loeb, delegates to the 1927 naval conference in Geneva.

Afterward it was semi-officially reported the American reply to the British and French notes of six weeks ago was rapidly nearing completion, but later it developed certain technical questions and the disposal of which probably will delay the note a day or two. It was said at the state department that the American note can be expected to foreshadow the early demise of the as yet unpublished Anglo-French agreement.

Under no circumstances, it was declared, will the United States agree to further naval limitation on the basis proposed by England and France.

#### WOMEN SAVED WHEN HOSPITAL BURNS

CLEVELAND, O., Sept. 25.—Five young women, trapped by smoke on the second floor of a maternity hospital were carried down ladders to safety early today by firemen.

The rescue was directed by Fire Capt. Alex Skaleski. Two of the women, suffering from severe shock, were removed to another hospital. Nine others got out without assistance.

Damage by fire, smoke and water amounted to \$28,000.

#### AMERICAN GIVEN FREEDOM BY MEXICAN BANDITS FOR RANSOM

MEXICO CITY, Sept. 25.—Ransomed for 20,000 gold pesos after he had been held captive by a band of Mexican bandits for three weeks, Edward J. Bumstead, Los Angeles, general manager of the Humboldt mines in the state of Navarrit was little worse for his experience today.

Bumstead told a graphic story of the long days of captivity and described his captors as rebels who pursued guerrilla warfare as a means of aiding the Catholic Church. His captors held him for ransom near Ixtlan and ex-

plained to him that their only object in so doing was to obtain money.

"I was captured by twelve men who had previously visited the mine asking for food," Bumstead said. "Upon their second visit they told me that they wanted me to see their chief. At his headquarters I found that I was a prisoner and was informed that my release would cost 20,000 pesos."

"We rode all night and the next day at the rebels' camp I was informed that my freedom was obtainable for 20,000 pesos."

### STATE EXAMINERS FIND \$4,989 ILLEGALLY PAID OUT BY CITY

COLUMBUS, Sept. 25.—State examiners today reported to the State Bureau of Accounting an examination of the City of Xenia, Greene County, covering a period from September 1, 1926, to June 18, 1928, showing an illegal payment of \$4,989.61; a finding for adjustment of \$9.73 and findings for recovery of \$250.05.

The illegal payment, they found, included \$545.40, paid to Ellsworth Weaklin, for janitor work under an ordinance which had been repealed; \$1,780.61, paid the Foster Engineering Co., and \$2,663.60, paid Stiles Co. The latter two items were for work let without contracts.

In the finding for recovery, John Preusch, Bessie Kennedy and Mary Kennedy allegedly received overpayment of wages of \$6.83, \$11.86, and \$7.45, respectively. The finding for recovery also included \$141.70, paid the county from the city and \$1.90 to the state from the city. Both amounts had been paid, the report shows.

A finding of \$80.32 was returned against the Citizens' National Bank, Xenia, in favor of the city and represents interest due on deposit.

### HUGE SEWER GRAFT CASE GOES ON TRIAL TUESDAY IN NEW YORK

NEW YORK, Sept. 25.—New York's most gigantic graft scandal of recent years—the \$30,000,000 Queens sewer case—goes to trial today after a year of sensational developments which rocked the city's political circles.

In the antiquated Queens County courtroom at Long Island City where Ruth Snyder and Judd Gray heard the death sentence, former Borough President Maurice E. Connolly and Frederick B. Seeley, his engineer in charge of the job, will face a special "blue ribbon" jury. They are charged with

conspiracy to defraud thousands of taxpayers in a huge sewer construction program involving more than \$22,500,000.

During the year which has elapsed since the scandal first exploded, the case has gathered dramatic elements which set it apart from the administrative scandals which arise every year in dozens of large American cities.

Mystery, death and a legal skirmish which taxed the strategy of Governor Alfred E. Smith and the entire New York state legislature have woven themselves into the plot.

Connolly, the stout, red-faced little politician who is the central figure in the scandal, was president of the Borough of Queens and the Long Island residential district which, since the beginning of the century, has been a Golconda for administrative plunderers.

Like other borough presidents who succeeded "Battle Axe" Gleason, mayor of Long Island City, thirty years ago, Connolly has gone out of office accused of defrauding his taxpayers. "Curley Joe" Cassidy, first of the line, was sentenced to a term in Sing Sing. The next fled to Europe under fire. Lawrence Gressner, Connolly's predecessor, was removed from office in 1913 by Governor Dix.

### SCANDALS SUBJECT OF GOVERNOR SMITH IN FOURTH SPEECH

#### Candidate Turning East After Talk In Mon- tana.

HELENA, Mont., Sept. 25.—Gov. Alfred E. Smith will turn back toward the east today, leaving state political leaders to follow up the missionary work of his personal appearances through the wide belt of territory extending from Oklahoma northward through the western corn and wheat belt.

He closed this phase of his campaign with a revival of the Teapot Dome oil issue, upon which John W. Davis built his campaign in 1924.

Gov. Smith turned his fire upon Herbert Hoover for failing to condemn, as a member of the cabinet, the "scandals" of the Harding administration in this fourth campaign speech.

Calling upon the Republican presidential candidate to repudiate the "scandals" now, the Democratic candidate said Hoover cannot pass this challenge to the Republican national committee, but must meet it himself.

The Republican administration, of which Hoover was a member, must bear responsibility for the Teapot Dome and Elk Hills naval oil transactions, the administration of the veteran's bureau by Charles R. Forbes, and of the alien property custodian's office by Thomas W. Miller, as well as the regime of Harry M. Daugherty as attorney general, Smith declared.

### TWO KILLED WHEN TRAIN HITS TRUCK

WARREN, O., Sept. 25.—Two persons were killed and a third injured when the truck in which they were riding enroute to Cleveland was struck by a fast freight on the Niles road, crossing the Pennsylvania railroad here last midnight. The dead were Michael White, 17, and John Colapiedro, 42. The injured person is Miss Peggy White, a sister of Michael. The three lived in Girard.

#### WILLIE HESTON JR.

ANN ARBOR, Mich., Sept. 25.—William Heston, Jr., was in the freshman football uniform at the University of Michigan today to groom himself for a halfback position. Heston was hailed as the successor of his father, Judge Heston of Detroit, the "wonderful Willie" of the famous Michigan football team 25 years ago.

#### Killed by Husband

Mrs. Jeannette Graham, of Quincy, Mass., who was shot and killed by her husband, William Graham, 35, a former sailor, when she spurned his pleas for a reconciliation. The tragedy took place in full view of more than a score of persons sitting on front porches of their homes.

### THEATER FIRE TOLL STANDS AT SEVENTY AS PROBE LAUNCHED

#### Ten Doctors Conduct Au- topsies; Tales Of Hero- ism Told.

MADRID, Sept. 25.—Tales of heroism and horror were still being told here today after the fire in the Novedades Theater in which seventy persons lost their lives.

All theaters closed out of respect for the dead.

When fire broke out most of the 1,000 persons who were in the theater stampeded.

The gallery stairway terminated near the bar and the attendant's hurried bodies into the street. The injured who fainted amid the confusion would have died if they had not been taken out immediately by the milling masses of human beings who were locked together.

One man, who had gone to the theater with his wife and four children, saw them die before there was a chance for the rescue force to reach them. He pulled out a pistol and committed suicide.

The bodies of five persons were found, with the hand of each grasping a knife with which they vainly had tried to fight their way out of the building.

Joaquin Monasterio, head of the fire department, had been recovering and that nine persons had died of injuries.

Firemen are keeping a close watch on the ruins of the building.

Primo De Rivera, premier, had visited the scene of the tragedy twice, expressing great grief and sympathy for the families of those who lost their lives.

It is estimated that the property loss will amount to 1,000,000 pesetas. The theater was insured for 250,000 pesetas.

Ten physicians are conducting autopsies.

### PORTUGAL SUFFERS FROM SEVERE STORM

LISBON, Portugal, Sept. 25.—A severe storm, accompanied by a driving rain and strong winds, caused enormous damage in Portugal yesterday and today. Many districts were flooded.

The damage around Oporto and Galla was exceptionally heavy. Floods also occurred here. At Cascaes, two ships were sunk during the storm. The crews escaped by swimming ashore.

### PLAN TO EXECUTE ALLEGED SLAYER

COLUMBUS, O., Sept. 25.—Un- less court action or executive clemency intervenes, John Bradshaw, 50, colored, Columbus, will die in the electric chair tonight for the murder of Katie Young last February.

Bradshaw shot and killed the woman when she discharged a shot gun pointed through a window of the home in which she was, according to evidence at his trial. He insisted at his trial that he did not know the date or any of the details of the slaying.

#### ESCAPE IS FOILED

ATHENS, O., Sept. 26.—Six prisoners, saving their way to freedom, were forced to give up the attempt when the iron bars held, Sheriff William Williams announced today.

### TENTATIVE RATE IS TWO DOLLARS LESS THAN FORMER RATE

#### Auditor May Adjust Rate At \$22.50 For This Year.

Xenia city's tax rate for 1928 has been tentatively lowered by County Auditor R. O. Wead from \$24.50 to \$22.50, a reduction of \$2.

In fixing the tentative rate, subject to the approval of the County Budget Commission, Auditor Wead, in a letter mailed Tuesday to the various taxing bodies within the city, extended an invitation to meet with the budget commission before the final approval of the rates.

The taxing bodies are asked to notify Auditor Wead by 10 a. m. Wednesday, September 26. Otherwise the rates will be certified to the State Tax Commission for final approval.

Auditor Wead also explained in the letter exactly how the \$2 reduction will be accomplished. The state reduction will be .60 mills, or 70 per cent; the county reduction, .70 mills, or 14.59 per cent; the city school reduction, .15 mills, or 1.16 per cent; and the city reduction, .60 mills, or 10.91 per cent. The township increase is .95 mills.

The proposed city levy within the 15-mill limitation will be \$15 and outside of all limitations, \$7.50.

Following is a table showing the proposed levy for the various city taxing bodies for 1928:

	15-Mill Limit	No Limit	Total
State bonus	\$ .25	\$ .25	\$ .50
County	\$ 3.10	1.00	4.10
Schools			
County levy	2.65		
Local levy			
General	2.50	2.60	
Int. and Sink	1.50	2.60	12.82
Township	.15	.05	.20
City			
General	3.66		
Int. and Sink	1.24	4.90	
Library	.20		

Total \$15.00 + \$7.50 = \$22.50

Auditor Wead announced tentative rates have been fixed for forty-eight of the fifty-two taxing districts of the county for this year.

In forty-two of the districts, the tentative rates are lower than 1927. In five districts they are higher and in one district the rate remains the same. Rates have not been fixed tentatively for four districts.

### JAWARSKI'S PAL IS HELD FOR ROBBERY

STUEBENVILLE, O., Sept. 25.—"Slim" Bogoski, reputed member of the "Flathead Gang" organized by Paul Jawarski, Pittsburgh bandit now held in Cleveland for the murder of a policeman, was to be arraigned today on a robbery charge.

Bogoski is alleged to be one of the trio, that posing as dry riders, entered the home of John Shetlock near New Cumberland, W. Va., last week and stole \$413 in cash and jewelry.

Joe Zuber, identified as the leader of the trio and Stanley W. Zensel, but are in jail awaiting grand jury action in connection with the robbery. Three others arrested with them are at liberty under bond, awaiting hearings on suspicious person charges.

All were arrested in a house formerly occupied by Jawarski.

### QUAKES OCCUR IN GUADELOUPE NOW

PARIS, Sept. 25.—Earth shocks have occurred in Guadeloupe, recently devastated by the West Indian hurricane, the ministry of colonies was advised in a cable today from the governor of the colony.

The cablegram said Point a Pitre, principal town of the islands, was "badly shaken" by earth tremors at 5:30 a. m. yesterday, a few hours after the governor had visited the areas devastated by the storm.

### CADET SCHOOL SHIP ASKS ASSISTANCE

WASHINGTON, Sept. 25.—The coast guard cutter Chelan has been ordered to the assistance of the Newport, cadet school ship, whose officers reported her in trouble east of Bermuda, the navy department said today.

The Newport lost her propeller, according to word received at the coast guard headquarters here. The Chelan was at sea proceeding to the Bahama Islands as part of a relief expedition when notified of the Newport's plight.

Regular meeting of Troop No. 11, Boy Scouts of America, will be held at 7 o'clock Tuesday night at the Scout cabin. Each Scout is asked to bring a piece of wood. A good turnout is desired by Scoutmaster R. H. Kingsbury.

## WILL END SERVICE

P. J. Sweeney, Dayton, conductor on the Chillicothe-Dayton run, of the Baltimore and Ohio Railroad, will celebrate his fortieth anniversary with the company next Sunday by retiring.

Sweeney is well-known by passengers on the line that passes through Xenia.

After riding on many types of trains on the company's lines, he spent the past few months on the electrified train on that route. The one-lung chuggers of ties, to the electrified coaches in use today, have carried Mr. Sweeney on thousands of trips, during the last half century. He was with the Erie road thirteen years before going with the B. and O.

## L. E. ELLIS, NATIVE OF GREENE COUNTY, CLAIMED BY DEATH

Lewis E. Ellis, 58, president of the Gem City Ice Cream Co., Dayton, and native of Greene County, died at his home, 2400 Harvard Blvd., Dayton, Monday evening, following a cerebral hemorrhage, suffered while driving home.

His condition was not considered serious when he reached home after the attack but he died a few hours later.

Mr. Ellis would have celebrated his fifty-eighth birthday Tuesday. He was born in Bowersville, September 25, 1870. He was a member of the board of directors of the Dayton Kiwanis Club and was affiliated with many other clubs and lodges in that city. He was a member of the Blue Lodge, Shrine, Knights Templar and Scottish Rite of the Dayton Chapter of Masons and was also a Knight of Pythias.

He was a member of the advisory board of the Dayton Savings and Trust Bank of the Grace M. E. Church.

He has been interested in the ice cream industry a number of years, his first position being with an Indianapolis ice cream manufacturing concern in 1892. He organized the Gem City Ice Cream Co. in 1901 and in 1903, George D. Antin, Dayton, was made partner.

Mr. Ellis leaves his widow, Mrs. Anna Zimmerman Ellis; a son, Herbert, and a daughter, Mrs. Helen Hall, wife of J. Alfred Hall, Durham, N. C.

Herbert Ellis started on a tour around the world with a professor from Ohio Wesleyan University Saturday and word of his father's death reached him in Nevada.

Mr. and Mrs. Hall have been visiting Mrs. Hall's parents and had started Monday for their home in the south.

One brother, Bonner Ellis, near Xenia and two sisters, also survive. Funeral arrangements have not been made.

## REV. MANTLE HEARD BY COUNTY COUNCIL OF RELIGION UNIT

The Rev. W. N. Mantle gave the address of the afternoon, when the Paintersville Unit of the Greene County Council of Religious Education met at Mount Tabor M. E. Church, Sunday afternoon. A good program of music and talks was given.

The Rev. Mr. Mantle stressed how much is expected from so little put into the Sunday Schools. He brought out the need of trained teachers in the Sunday Schools as well as week-day pupils. He also emphasized the pupil-centered curriculum or a curriculum in the Sunday School built around the interests and needs of the pupil.

Two county officers were present and gave short talks on the young people's work just begun in the county.

A banner was awarded to the largest delegation from Pleasant The next unit meeting will be held in Bowersville, the date not yet being decided.

The county president of the council says "The Paintersville Unit has proved a success and has functioned better than any other unit in the county. If I could only get all units to work like this one, greater things could be accomplished."

## WIFE GIVEN DECREE OF DIVORCE HERE: OTHER COURT NEWS

Lena Williamson has been granted a divorce from Charles Williamson in Common Pleas Court on grounds of extreme cruelty and was ordered restored to her maiden name of Johnson.

The defendant was ordered barred of divorce interest in certain property. The court decided that the plaintiff and defendant must jointly pay off a mortgage amounting to about \$115 on two lots, the defendant to pay two-sevenths and the plaintiff, five-sevenths of the sum.

When the defendant has paid his share of the mortgage, the plaintiff shall give her husband a deed to the lot, the court ruled, adding that the parties to the action are each to keep household goods in their possession.

## FORECLOSURE ORDERED

The Home Building and Savings Co., has been awarded a judgment for \$4,284.90 against Orville Pawley and others in Common Pleas Court. Foreclosure and sale of mortgaged property was ordered.

## SEEK PARTITION

Partition of property is asked in a suit filed in Common Pleas Court by James Fred Pownall against Alice Crawford, John Crawford and The Home Building and Savings Co. The savings firm claims a mortgage interest in property described in the petition. H. D. Smith is attorney for the plaintiff.

## NAMED ADMINISTRATRIX

Bessie L. Peterson has been appointed administratrix of the estate of Carl L. Peterson, late of Sax and others in Common Pleas Court. Foreclosure and sale of mortgaged property was ordered.

## MARRIAGE LICENSES

Harold E. Durnbaugh, R. R. No. 8, Dayton, bookkeeper and Grace E. Miller, R. R. No. 3, Xenia, Rev. Eidemiller.

## HIGH SCHOOL NOTES

The first meeting of the Student Council, which consists of home room representatives and class presidents, will be held this week. At this meeting it is hoped that all plans for the publication of the Central High "Review," school weekly, may be made and the date for the first issue set. Other matters of importance are also expected to be brought before the council.

Regular practices of the orchestra and Glee Clubs are well under way and the students taking part have already reached what we may call "mid-season form."

The Glee Clubs are holding five rehearsals weekly under the direction of Hugh Miller in preparation for their opera, "Miss Cherry Blossom," which is to be presented soon.

The "jolly friend" of "Oswald" (tackling dummy of the football squad) will be introduced to the student body at an assembly early this week. The identity of "Oswald's" friend has not been announced but it is reliably reported that he is also connected in some way with the football team.

E. G. Whitworth is directing orchestra practice sessions four days each week and is highly encouraged by the showing of his proteges.

## FEEDING OF NEEDY IS EMULATION OF MASTER

There is in the city of Xenia an organization called the Parent-Teacher Association which deals directly with our public school life. One of the big things which this organization is doing is providing a hot meal every school day for undernourished school children. Children who have not the proper food, or the proper amount of food, are not only physically unfit for school life, but mentally unfit as well. It is this condition among some of the children in Xenia which the Parent-Teacher Association is doing much to correct.

Last year from fifty-two to eighty such children were fed every school day with a well-balanced and a carefully planned meal, and every one of them gained physically and mentally. During the entire school year three thousand meals were served to pupils from the McKinley school, and thirteen hundred and sixty meals to pupils from the other schools. This means four thousand three hundred and sixty meals were provided during the school year. In this way the Parent-Teacher Association is doing more for the needy school children than any other organization could possibly do, and doing it intelligently. For this reason it is worthy of every consideration.

Few people know of the poverty and need which are to be found in some of the homes of our city. Just last year in one of our public schools one of the pupils there brought his little brother who was not of school age to his teacher to get him one of the hot meals which the P. T. A. provided. When it was explained to him that only children in school were given meals, he said, "Well, we didn't have any supper last night, and we had no breakfast this morning, but I had a good dinner yesterday, so give my dinner today to my little brother." It is needless to say that a way was provided whereby both boys that day had something to eat. That is only one instance out of many that might be given to show the need. Such need of children in school is thus being met by this organization.

The money needed to carry on this good work is raised by the Parent-Teacher Association through solicitation of funds from the citizens of the city. Next Thursday, September 27, the association has set apart for this drive. The amount asked in that drive is only \$1,000.00, and surely every one who is financially able will want to contribute his or her share to this good work.

It was the Master himself who said one day as he was speaking of those who fed the hungry and clothed the naked, "Inasmuch as ye have done it unto one of the least of these, ye have done it unto Me."

REV. H. B. MELREED,  
Second U. P. Church.

## ATTACK ON OUTDOOR ADVERTISING GIVEN BEFORE STUDENTS

"Save the beauty of the American landscape. No place for outdoor advertising." was the slogan of the National Organization for the Restriction of Outdoor Advertising, stressed by Mrs. Walter Lawton in an address before the student body of Antioch College Monday morning.

Mrs. Lawton declared that "no matter what value outdoor advertising may have, it cannot possibly be valuable enough to destroy the beauty of our landscapes."

"We cannot travel two consecutive miles from Northern Maine to Florida without being slapped in the face with signs which distort the beauty of the highway," the speaker added.

Mrs. Lawton declared that many of the most prominent national advertisers have agreed to remove signs from 242 and include practically all of the large tire concerns. To completely remove all of the signs from the roads, legislation is deemed necessary by Mrs. Lawton.

A few stereotypical slides were shown at the close of her talk. These portrayed examples of how scenic landscape is ruined by bill boards.

## SECOND CHILD IN FAMILY IS CALLED

Lawrence Williamson, three-year-old son of Mr. and Mrs. Clarence Williamson, Harbine Ave., died Monday afternoon at 4:30 o'clock from enteritis, a stomach complaint.

Another child, Clarence, Jr., died last week. Both children were stricken after they had eaten grapes, the second child shortly after the family returned from the funeral of Clarence.

Surviving are the parents, and one sister, Betty Jean and a half-brother, Leroy Coates.

Funeral services will be held at the house Thursday at 2 p. m. with burial in Woodland Cemetery.

## ITCHY PIMPLES ON FACE

Festered and Very Sore Scratched and Sleep. Cuticura Healed.

The trouble began with pimples on my face. They were very large but were red and festered. The pimples were very sore and itched and burned at times so that I scratched them in my sleep.

I began using Cuticura Soap and Ointment and they gave relief at once. I continued using them and in about three weeks was completely healed, after using one cake of Cuticura Soap and one box of Cuticura Ointment. (Signed) Miss Evelyn Dryden, Hermitage, Mo.

Daily use of Cuticura Soap with touches of Cuticura Ointment as required, keeps the skin fresh, smooth and clear. Cuticura Talcum is an ideal toilet powder.

## EAST HIGH NOTES

At the regular chapel hour last Friday, the Junior and Senior High School students observed a program in commemoration of "Emancipation Day."

Principal Arthur Taylor presented Mr. H. O. Mason, the manual arts teacher of East High School who spoke on the "Progress of the Negro since 1865."

Mr. Mason said, "If the progress of the Negro in the next sixty-five years increases in the same proportion as it has in the past, the security of the race need cause no fear."

The first motion picture show, sponsored by the East High P. T. A. will be Tuesday night, October 2.

Milton Sills will be featured in "The Valley of Little Giants."

## BIBLE THOUGHT FOR TODAY

BLESSED ARE THE MEER—The lofty looks of man shall be humbled, and the haughtiness of men shall be bowed down; and the Lord alone shall be exalted in that day.—Isa. 2:11.

## ENTHUSIASM FOR FOOTBALL

A characteristic autumnal sight is the squad of huskies and recruits gathered on college and school football fields, preparing for the battles to come. It is serious work as they rehearse each detail of play, and go through severe exercises to develop wind and muscle. The interest of the public gradually gathers. Soon the crowds are wending to the football seats. As the weather grows cooler, the fur coats come out, and the crowd grows bigger.

In many games the players play through a continuous rain or snow storm, and the spectators are likely to remain until the final whistle blows. Some persons remark that they would not stay out in such a storm for any amount of money. Yet those who brave the storm do not seem to mind it. Many of them are wet to the skin, but when people's enthusiasm is aroused the danger of the exposure is lessened. The way people will go through such experiences shows what a hold this fascinating sport has.

The popular love for this game seems to be based on two principles. First, the love of a winner. Our people admire success and achievement. They like people who do things against obstacles.

They admire, of course, fine physical development, but that is not the primary interest of the football field. They like to see a player go through the opposing line, in spite of all those powerful fellows waiting to trip him up and pile on top of him.

They admire anything that is skillful and scientific and brainy. They recognize this game as not so much a struggle of beef and muscle, as one of brains and planning and wit and strategy. The nimble agility of the player who advances the ball appeals to their imagination, and they cheer for him and sit out in the rain to see him do it. It is a good, wholesome activity, that does credit to American spirit.

## AIR STUNTS AND HAZARDS

The army air service has decided not to participate in the military free-for-all contest for pursuit planes in the national air races. Whether this decision was made as a result of the commerce department's recent protest against competitive stunt flying has not been disclosed. Possibly, however, military chiefs agreed with civilian officials that, while knowledge of "stunting" is necessary to the war flier, exhibitions of dangerous aerobatics have little value in creating public confidence in commercial aeronautics.

The entire trend of aviation as encouraged by the commerce department is toward safety and reliability. In this field airplanes have achieved extraordinary success when flown under conditions which eliminated all unnecessary strains and hazards, the disappointing results of the transcontinental air races notwithstanding. In that event airplanes were required to perform an unusual feat. They were laden with fuel to the limit of their carrying capacity, they were stripped of all equipment not absolutely necessary to successful flight, and they were competing in speed. Naturally, with a rich prize before their eyes the pilots found it difficult to refrain from pressing their motors to the straining point.

Like any other mechanical device, an airplane motor endures longest when run at minimum speed. The failure of the race did not indicate so much that aviation has fallen below expectations as that transcontinental non-stop races must still be classified as "stunts."

British builders have invented cork houses. Will a man staying out late be obliged to carry a corkscrew?

## The Way of the World

By GROVE PATTERSON

### TIME

One who has no appreciation of the possible value of the time of another is selfish and very often the worst form of bore. Your friend's time may be of very little value but you are not courteous if you do not at least assume that it is valuable and behave in accordance with that idea. To go into any man's office and stay an hour unless you are sure you are welcome is taking a chance. You are taking the chance of getting on the "list to look out for."

### CAN'T LIVE ALWAYS

The man who rises to a better job by "double crossing" another, or the organization which lends its power to condemn a good man or support one who does not deserve it may seem to prosper for a time. Unless the whole world is entirely upside down no man can stand long on a rotten foundation.

### BOOKKEEPING

Few of us can resist the temptation to keep dishonest books. We hate, above all else, to tell ourselves the truth. We have figured all sorts of ingenious ways of figuring how we can afford this, that and the other thing. We make all sorts of curious plans for refinancing ourselves, hardly realizing that we are fooling ourselves and merely using figures to deceive. It takes a strong and wise man to keep honest books on his own finances.

### POLITICS

It is quite wrong, of course, to advise young men not to go into politics. This country needs young men in politics. Politics may be dirty but politics can be made clean when enough of the right sort of people get in and change the methods. But it's no sweet and easy life and it takes a fighter to make a success. Young men should give a lot of thought to what they are going to be up against—and old ones too—before they plunge in and run for office.

## The Diary

of a

## New Yorker

By CLARK KINNAIRD

NEW YORK—One of O'Henry's stories has to do with a professional sharper who had no luck at all in selling gold bricks in the "sticks," but has a rushing business when he starts auctioning them in New York.

Gold-brick selling is one of the principal industries of the Times Square district. They are hawked from early morning until late at night at "jewelry" auction rooms in Broadway, 42nd street and Sixth avenue.

A red flag hangs out of all the places, but fails to keep the suckers out. Phoney gems, cheap watches masquerading under brand names so close to famous trademarks as to be deceptive, and highly ornamental gimcracks are sold to edifying crowds. The houses use various devices to get prospective patrons to believe that the goods offered is genuine and is being sold at a bargain. "Seized smuggled diamonds," "Bankruptcy sale," "Unredeemed pawnbrokers' diamonds," "Advertising Sale," etc.

I am irresistibly drawn to the places, and often stand and watch the auctioneers and their "cappers" play their game for hours, and I am of the opinion that most of the suckers are not out-of-towners, but are New Yorkers. For there is something about New York that makes a man a sucker—the stock market, the horse racing pools, life itself in the subways, delicatessens and super-movie palaces. New York destroys all the sense of value. It is a place where people are willing to pay 50 cents for an ice cream soda, \$1 for a movie, \$2 for a phony bottle of wine, \$1.50 for a pound of cooked ham, 35 cents for a head of lettuce, \$10 for a book of smutty stories, when they can get the same things around the corner, if they would take the trouble to look for them, at a fraction of these prices.

And there are other places that hold equal fascination for me, along with the jewelry auction rooms. In the same neighborhood, too, along Sixth avenue, in the vicinity of 42nd street, they are employment agencies.

Every morning, in good times or bad, fair weather or foul, little knots of men and women gather outside these agencies to look over the list of attractions. Poorly-dressed women, seedy-looking men, mostly middle aged or past, comprise the groups. Here you'll find tragedy written on faces.

But the other morning, as I stood in front of one of these establishments, a young fellow emerged, bursting with enthusiasm, and with a slip of paper in his hand. He pushed through the crowd hurriedly, and went dashed through the crowds. He was on the tail of a job, apparently, and wasn't going to allow anyone to beat him to it, if speed on his feet meant anything.

What a contrast! Youth hurrying to find something to do, and age merely looking over the listed jobs and turning away. Maybe they, too, in another day, had rushed forth, ready and eager for something to do.

This menu was planned for a special "company" day. If blackberries are "out" in your neighborhood, use other berries or green apples for the pie.

Today's Recipes.—One tablespoon gelatin, one-fourth cup cold water, one pint blackberries, one cup cream (whipped), few grains salt, one cup sugar. Soak gelatin in cold water five minutes, add boiling fruit juice and sugar, and when almost cold set add berries. Add salt and pour in previously baked pie shell and when ready to serve, top with whipped cream or meringue.

Cream Puffs de Luxe.—Bake puff shells from regular recipe and, when cold, slit and fill with fruit gelatin which has reached the quivering stage. When set serve with a dab of whipped cream on top, or brush top with a confectioner's sugar icing.

Baked Apples.—Core sweet apples, one for each serving, and fill cavity with pulverized maple sugar, or brown sugar will do. Add a few raisins, a few dabs of butter and put in pie tin, adding just a little water. Bake until tender and watch to keep water in pan so they won't burn.

Jam Cake  
(Mrs. Mary Morton's Daily Tested Recipe)

One cup sugar, three-fourths cup butter, three eggs, one teaspoon soda, one teaspoon ground allspice, four teaspoons sour milk, one teaspoon ground cinnamon, one cup jam, two cups flour.

## How to Achieve Beauty

By MME. HELENA RUBINSTEIN

### COMMON SENSE IN BEAUTY CARE CONTINUED

One of the most important of all beauty habits is sleep. If you don't receive sufficient sleep, you can't get the most important, sufficient restful sleep, you will never keep the beauty you have or attain any more. There is nothing so aging as insomnia. It not only steals away your nervous balance, but it adds years to your age and wrinkles to your forehead. Learn how to sleep, and you will have learned an important part of beauty care.

In the first place, try and teach yourself to relax. Relaxing is not transferring tension. You are not relaxing when you are knitting, for instance. Your brain may be passive and your feet may be passive, but your hands are moving, and that means that there is a nervous tension being carried to your fingertips. Frowning, tapping, other little personal habits which are really nervous habits, must be corrected before you can learn to relax completely.

When you are planning to sleep, do not permit yourself to think over what has happened during the day, or to plan your next day's work. Stretch and turn as much as you wish to. This will tire your body and relax the muscular tension, but when you feel that you are quite ready to sleep, determine to let go. Instead of holding yourself stiffly on the bed, let the bed hold you. Be sure that your windows are open from top and bottom, thus ensuring you a free current of air—and then sleep.

## Diet and Health

By LULU HUNT PETERS M. D.  
Author of "Diet and Health" and "Diet For Children"

### Why Milk Is A Good Food For the Growing Child

God could not be everywhere; therefore He made mothers.

—Jewish Proverb.

Not Butter vs. Milk  
"Would you advise the use of nut butter for a 21-months-old baby? My baby seldom drinks more than a glass of milk daily, and never more than one pint. He is very fond of the nut butter, so I feed him plenty of it, hoping it will make up somewhat. Have tried chocolate and malted milk. Can you suggest anything to induce him into drinking more milk?"

MRS. B.

There are three reasons why milk is such a good food and these are: 1. Its complete protein (building and repair food), 2. Its lime (calcium) (necessary for proper chemistry of the body and bones and teeth), 3. Its growth vitamins. In order to evaluate nut butter as a substitute for milk we would have to think of these qualities for any diet, but naturally they are more important during growth.

The chief nut butters are peanut and almond. Both of them have a very high-grade protein. Animal experiments show it is a good building protein, so on the first count they are alright.

Now the lime. The almond has an even higher percentage of lime than milk. Milk has 12 grams in an ounce; almonds have 225—almost twice as much; but the peanut has but .7, or about

half as much as the milk. So we have almonds O. K. on the first two counts.

Now the third—the growth vitamins. All nuts are low in this, while good milk is very high in it. Therefore, while nuts and nut butters will take the place of milk so far as protein and lime are concerned, they will not take the place of milk so far as the vitamin A is concerned. And this is important.

So let baby have some nut butter if he likes it, but see that he gets the three glasses of milk a day, also. If he likes the nut butter so well, don't give it to him until he has had at least his two glasses as a drink. The other you can incorporate in his food by cooking his cereals in it and making gravies, etc.

We have a list of modern books on the subject of child feeding which you may have, Mrs. B.

Mrs. G.—Your doctor has told you that you are all right physically and mentally to have a child. Now your husband should go for an examination, for the husband is at fault in 25 to 50 per cent of the cases. You have been married only a year, however, and babies have come 10, 15 or even 20 years after marriage.

We have written quite a good deal lately on the diet for fertility. In general, you should have a balanced diet with a full share of vitamins and not allow your self to get overweight. If you

stupidity often seems to be a great asset. What set me thinking of this was an unexpected meeting yesterday with a young man whom I had known years ago as a boy, son of a neighbor. The boy had been a heavy-footed, clumsy fellow and his mental processes were so slow that he was the despair of his teachers and parents. But now I learn that, while to all appearances as stupid as ever, he has become a prominent business man, one of the heads of a long-established and prosperous manufacturing enterprise. At first the explanation of this seemed baffling. But I later learned that his job is one requiring infinite patience and attention to small, uninteresting details. It is a job that would put a highly intelligent, imaginative person into a sanitarium. Such a job requires a certain amount of stupidity. Only a slow-witted man is capable of resisting the boredom of a monotonous occupation. Many a successful business owes much to the stupid.

A TUG OF WAR  
"To be sure Cormorant felt sorry for the captive—probably the poor fellow was dreadfully scared, not having the least idea what was going to happen. But he did look and act so comical, a teapoonful to a glass of water is a very good bleach and also antiseptic. Rinse with cold water."

The juice of a lemon in hot water is also very good. To whiten the teeth, use a pinch of plain table salt on your toothbrush with cold water. Peroxide, a teapoonful to a glass of water is a very good bleach and also antiseptic. Rinse with cold water."

"Never in his life had Cormorant seen such a strong bird, nor such a spunky one. Determined not to be taken without a struggle, Albatross hung back with all his might, spreading his wings out flat upon the water."

are overweight, reduce. We have an article on Balanced Diet and a pamphlet on the subject of gaining and reducing weight which you may have.

Mrs. H.—The uterus normally tips forward but it is suspended by ligaments and can move fairly freely backward and forward in the pelvis.

No, the exercises you use for good health and reduction will not cause the uterus to remain fixed in the wrong position. In fact, the exercises of the trunk very frequently correct wrong positions, for they strengthen the abdominal muscles, the ligaments and all the tissues of the body, and give the right posture. This gives the correct pressure in the abdomen.

We have an article on the Abdominal Wall which gives some splendid exercises for the trunk. See directions.

## Behind the Scenes in Washington

By CHARLES P. STEWART

NEW YORK — Young John Coolidge probably did not have to answer many "ads" to land that \$30-a-week job he is holding down in the New York, New Haven & Hartford general offices, up at New Haven (Conn.).

To say that John makes his debut as a railroad man under no more favorable auspices than the average youngster would be bunk, of course.

It is mighty difficult to visualize John as being fired, which happens to the average young man quite frequently. It is difficult to believe that John will not be boosted somewhat—if he needs it—on his way up the ladder. In short, John will get the "breaks," if there is anything in prophecy.

Yet, it is a safe bet that young John's job is no sinecure.

Pa Coolidge will have attended to that.

If there is one thing, more than any other, upon which Pa Coolidge's mind is made up, it is that John shall hoe his own row in life.

John has not had an extra-easy boyhood because his dad was in the White House. On the contrary, I imagine the paternal discipline has been rather strict, because of Pa Coolidge's fear lest his son be spoiled, due to his presidential ancestry.

Anyway, all Washington knows that young John has had to walk a chalkline.

I take it, then, that Pa Coolidge has omitted no precautions to insure an honest-to-goodness apprenticeship for John in the transportation business.

John, as I understand it, is not to stick indefinitely in a clerical position with the New Haven, but is to be switched about, from department to department, to make him an all-around railroad man, which will stand him in good stead when, finally, he graduates into some high executive position.

But I do think that John actually will know his stuff when he arrives there. He undoubtedly

will be given exceptional opportunities to advance rapidly, but I feel sure that he will be required genuinely to qualify for promotion before he gets it. His official bosses may be a little lenient with him, but not Pa Coolidge.

And will young John have to live inside his \$30-a-week salary in the meantime?

Say! Have you ever heard about Coolidge economy? 'Nuff said.

But how is John going to marry Florence Trumbull, the Connecticut governor's daughter, on a stipend of \$30 weekly?

Ab, let us venture the guess that John will be drawing a better envelope by that time. John has a more dependable future than the "average young man," above referred to. John can calculate his income in advance with fair certainty.

But on this I stand ready to stake all my money—

John will not marry before he is able to support a wife without help from the old folks—beyond a good wedding send-off. It would be contrary to Coolidge principles.

That is, he will not do so with his father's consent, and John is too dutiful a son to disregard the father's orders.

John's submissiveness to Pa Coolidge's commands has been put to the acid test by the latter's insistence on a secret service escort for his son, in his every coming and going, throughout the last two or three years.

The "average youth," hating some feature of his home life as they say young John hates this attendance, would have run away to sea.

John has born it—still bears it. Personally he likes William Woods, who follows him as faithfully as his shadow—and a good deal more conspicuously. But oh! when next March comes and his father quits the White House and he can get rid of William—what joy will be young John Coolidge's.

### RIGHT FOOD CREATES HEALTH. RIGHT THOUGHTS BRING JOY

Physicians say that if we eat the right food we will go far toward achieving a perfect state of health. If we are ill we immediately check up on ourselves to see what we have done that is hygienically wrong. Do we do the same if we are mentally ill? And wouldn't it be a good thing if we did? Maybe we are feeling ourselves the wrong kind of indigestion. Instead of others being mean and unkind to us, possibly we are not treating them right. And if we tried what doctors call "balanced diet," we would be all right.

A woman writes me at great length complaining of her failing health. They are so mean to her and she works so hard and is so ill. She wants a personal reply and I shall send her one, but I wonder if she is not, at least partly, to blame for the state of things she complains of.

CANTON FACES WAR OVER AUTO

With the advent of the automobile the transportation situation in Canton, China, promises a war of its own. In the city of 870,000 population and only 38 miles of modern streets, the 14,000 licensed rickshaws pullers have just about driven sedan chair carriers out of business, but the coming of the automobile has caused the "ricksha" men to form a union in self defense. Canton has only 420 registered passenger automobiles, besides the 80 official cars of the 364 are owned by garages and rented to the public, constituting Canton's taxi service. Nine of every 10 of these machines are American-made. The organization of the coolies into a union is expected to result in a demand for higher wages to "rickshaws" and garage men that may war that will make the revolution seem tame.

"At last the bird, knowing his self to be conquered, had given up the fight. Leaving the water he rose into the air like a huge white kite. Then, finally flapping his wings, he was swiftly and gently pulled down upon the deck."

"Hi, yah! You are caught, my fine bird."

"My lad?" cried they. And Captain added:

"It looks to me as if we would like to make the trip without any more of our mascot."

"Nothing daunted Bill, however, he replied:

"Not if I know it, sir. This is so soon in the game to give up, besides, look at all the fun the boys are having watching me, hurrah, sir, here he comes!" I told you so.

"Hi, yah! You are caught, my fine bird, and you know it. Why struggle any more and batter your pretty wings. We are going to be good to you and feed you on all the fish you can eat. Easy now! Not so fast! Nothing is going to hurt you, my beautiful male. Up in the air! Over the side! Down on the deck! There

# Strength Of Central Gridders Remains Mystery

## BOYS WHO GET FIRST CALL WILL AVERAGE 159 POUNDS IN WEIGHT

Athletes Grow Football-Conscious Under Direction Of Coach Wilson; Game With Washington Will Be Real Test Friday.

By PHIL FRAME

THE football situation at Xenia Central High School this fall is more or less a deep, dark secret.

Fans are therefore watching with considerable interest preparations for the opening game with Washington C. H. Friday afternoon at Washington.

With the actual playing season drawing near, Xenians are at last beginning to take things seriously and think in terms of football.

Sore muscles are numbered as the most common souvenirs as Coach Walter L. "Pinky" Wilson's squad of young hopefuls is getting down to brass tacks in preliminary workouts.

Coach Wilson, who teaches the boys how to play this game of kick, throw and run here, has not had much to say about his team.

One thing, however, is certain, the Blue and White squad has plenty of boys who know their way about the gridiron and are football wise from previous years of experience.

This is particularly true of the backfield. Xenia's captain-less eleven this fall will have a more versatile and finished backfield, which is expected to offset in a large measure, a definite loss of strength in the line.

All of which may mean that Xenia Central may be a whiz-bang this fall or it may not.

## ENJOYS GLORIOUS HEALTH; GLAD TO INDORSE KONJOLA

States That New Medicine Goes To Source Of Stomach And Kidney Troubles.

This celebrated Konjola medicine helps Nature restore the stomach, liver, kidneys and bowels to a more healthy, normal action. Most of the common disorders of the important functional organs have been conquered by this new

compound. The people of Xenia are strongly endorsing it. Over a hundred testimonials have been received within a few short weeks, all from men and women in this vicinity, and the Konjola Man at the Galanter Drug Store, 33 East Main St., this city, is kept busy throughout each day explaining this remarkable remedy to local people. One of the latest endorsements came from Mr. J. E. Robertson, R. F. D. No. 1, New Burlington, Ohio, a short distance from Xenia, who made the following statement:

"Konjola is a medicine of exceptional merit and I sincerely recommend it to anyone who suffers from the common ailments," said Mr. Robertson, "It has worked wonders in my case and I have every right to endorse it."

"For fifteen long years I suffered from stomach trouble. It is impossible to fully describe the intense misery I endured. During the time I faithfully took all medicines recommended to me but guess my case was too far gone because none of them ever gave me the slightest relief. As the years went by the trouble spread until my kidneys and bowels were affected. My nerves were unable to stand up under the strain and my whole physical condition became rundown. Night after night I failed to get my rest and during the day it was practically impossible for me to even drive an automobile. To say that I was discouraged is putting it mildly. I had given up hope and became convinced that my health would never change."

"I had heard and read a great deal about Konjola. Finally I yielded to persuasion and tried one bottle. The next morning I did not even think this would help me. But to my amazement there seemed to be a difference in my condition—I could not understand it but I gave the credit to Konjola and continued the treatment. With each passing day I noticed an improvement and now I have completed the last bottle of a treatment. Konjola has surely done the work and I feel like a different person—I am able to eat anything I desire even to the extent of sweet stuff—something that always acted as poison to my system. I sleep through the entire night and get up feeling refreshed and full of life energy. Since my stomach has regained its normal condition my bowels and kidneys stopped causing any trouble. It is for this reason that I want to convey to all sufferers the conviction that Konjola is a medicine of real merit."

The Konjola Man is at the Galanter Drug Store, 33 East Main Street, Xenia, where he is daily meeting the public and introducing and explaining the merits of this medicine.

PAIR ARRESTED

Opposite pleas were entered before Mayor John W. Prugh Tuesday morning by Daniel Hilderbrand and Noah Purdie, this city, arrested Monday night by Patrolman George Robinson for alleged intoxication. Hilderbrand pleaded not guilty while Purdie pleaded guilty. Mayor Prugh made no disposition of either case pending a further inquiry. Police say some one declared they found some one in a field while cutting corn.

## BAYLIFFS LOSE TO SOUTH VIENNA NINE

Encountering more opposition than they bargained for, the Bow-ersville Bayliffs found themselves swamped under a deluge of base hits and were defeated by South Vienna 14 to 2 Sunday afternoon at Jamestown.

South Vienna, champions of Clark County, literally bunted the home team to death. Alternating long blows with perfect bunts, the visitors had the Bayliffs at sea all the time and won an easy victory. The Bayliffs expect to play the Xenia Indians at Jamestown next Sunday.

September 24, 1928  
Xenia Gazette.

Dear Sir:

We do not wish to weary the reading public with too much publicity regarding our drive on Thursday night, for funds to fund the underprivileged children. However, we feel that certain points should be made very plain.

In the letter of Dr. R. R. McClellan, published a few days ago, he, while commending our work, suggests that it might be better if we join the other charitable organizations of the city in one big drive to secure all necessary funds. We have no wish nor disposition to appear exclusive or selfish in this respect, but we are an auxiliary of the state and national P. T. A. and the by-laws prohibit our joining with any other organization in our drives. This is explained by the fact that we are not a charitable but an educational organization; we do not do general work, but only among the children in our schools. All our work is done by our mothers, and so there is no overhead expense—every penny that is donated being spent for the children.

The following statement of our activities during the past school term may be interesting:

Cash on hand, September 1, 1927, \$58.77; cash received from drive, \$1,056.53, total \$1,115.30.

Cash paid for lunches served to undernourished children, \$932.80; total on hand, Sept. 1, 1928, \$182.50, total \$1,115.30.

We are justly proud of this record, and we feel that this project is deserving of the support of all who have at heart the welfare of the underprivileged child; and we feel that the serving of noon lunches to these children should be encouraged. This splendid plan will do more for the children of our city than any other general measure on the part of the public.

## GRID CAPTAINS

EDDIE BURKE  
Navy

Ed J. Burke, who played left tackle on the Navy team last fall, is captain of the Middles this season.

Weighing only 175 pounds, Burke put up a great game in the line last year. He is strong and active and did a lot of breaking through and tackling last season.

In addition to his ability as a football player, Ed has built up quite a reputation as a boxer in the 175-pound division. Spike Webb, coach of the Middle boxers, believes Burke to be about the best light-heavyweight ever to attend the academy.

Burke succeeds Ed Hannegan, of Washington, as leader. His home is in Wilkes-Barre, Pa.

Bob Ashbjornson, hard hitting Akron catcher, has been grabbed by the Red Sox.

# The Theater

Lovers of the legitimate, who missed the faces and performances of some of the outstanding shows last season, because the Victory, Dayton, was closed to road shows, are again rejoicing with announcement that the former plan will be resumed this fall and winter.

And they have good reason to rejoice, for the shows promised for audiences from Dayton and surrounding cities this season are of the first water and excellent casts are promised.

The theater will open for the winter season September 30, with "Simba" the mammoth wild animal picture, as the initial attraction.

Julia Marlowe, prominent Shakespearean actress, is among the first actress volunteers accepted as a platform speaker by the Democratic national committee.

The picture was taken in the jungle by Mr. and Mrs. Martin Johnson, on a four-year exploration trip. "Simba" will offer an opportunity for local people to hear the newest of sound devices for pictures, "The Dulcetone" with musical accompaniment and descriptive lecture by Martin Johnson.

Following will be "Wings" one of the outstanding pictures of the year, now equipped with sound devices. The picture has created a sensation over the country. But now for the legitimate offerings—"Blossom Time" the charming love story of Franz Schubert, will be the first stage offering.

Then comes "Keep Shuffling," famed Negro show. Miller and Lyles head this company of speedy dancers and singers. It comes to Dayton after an extended run in New York. This will be followed by the New York Theater Guild production "Porgy" with the original Negro cast. Since the play opened in October it has held its lead as one of the best plays on Broadway.

Among the other attractions on-

staged by the Victory management are: "Greenwich Village Polkas," Frank Craven in "The Nineteenth Hole," "Whispering Friends," George M. Cohan's comedy hit, "The Desert Son" (take our advice and don't miss this one), "The Trial of Mary Dugan" another of the year's best, "The Shanghai Gesture," with Pauline Frederick taking the role created by Florence Reed, and perhaps with Mrs. Leslie Carter, "Hit the Deck" Thurston the Magician, "Rio Rita," Mrs. Fiske and Otis Skinner in "The Merry Wives of Windsor," George Arliss as "Shylock," in "The Merchant of Venice," "Good News," the collegiate revue, and "My Maryland," Schubert extravaganza. About twenty other attractions will be booked, it is said.

## Twenty Years '08- Ago -'28

Hivling Stokes, a graduate of Xenia High School last year, left for Granville, where he will enter Denison University. The Xenia Nationals baseball Club has been fortunate in booking its next game with a team composed of all professional players, including F. Donahue, of the Boston Americans; Joey Collins, of the Southern League, and John Mercer, star pitcher in the Ohio State League.

Mr. Henry Shiz left for an extended Western trip.

## VIRTUES OF ANNUAL SCHOOL DRIVE HERE URGED BY HAMMERLE

A little curly head peaked above the blanket on a cot in the office of a Xenia city grade school. Two blue eyes which did not shine but instead "seemed to express indifference glanced up and then closed. "What is the trouble here?" the principal was asked.

"Well, I do not just know," was the thoughtful reply. "This youngster when asked about breakfast described an ideal meal of hot cereal, fruit and cocoa—but I know that was just to protect the reputation of the impoverished home and parents. This child, I believe, is just too hungry to sit up in the classroom seat," declared the principal.

What citizen of Xenia would not share his or her breakfast with this youngster to bring back that needed strength and the shine to those blue eyes? The Parent-Teacher Association drive on September 27 for \$1,000.00 is just for that purpose—that the folks of the community may have some share in feeding and clothing the undernourished and under-clothed boys and girls. Not a cent will be spent for any other purpose. The money will be expended by the P. T. A. officials.

True it is that the negligence and worthlessness and laziness of some parents cause this suffering. But who would make the innocent children suffer for errors and sins of the parents? A committee of the P. T. A. will check all the families whose children are cared for to prevent dishonest people and professional beggars taking advantage of the funds.

The children to be fed are sent at noon by the principals to the cafeteria in Central High School where a warm lunch is served them at a cost to the P. T. A. of fifteen cents.

The failure of a child to do satisfactory school work is always a tragedy. When a boy or girl is unable to do his school work because of hunger a serious injustice is being done the child. What adult would not share his or her breakfast with a youngster who could as a result go to school and get his reading, writing and arithmetic?

The drive of the Parent-Teachers Association is to get a fund to be used in feeding these undernourished children. All the money will be expended by the officers of the P. T. A. to those children they know to be worthy of aid.

LOUIS HAMMERLE.

## "Wear Black and Keep 'Em Guessing"

"Love is the dessert in the meal of life—as light as a soufflé, and you can't live on soufflés." That's one of the points made by Peggy Hopkins Joyce in advising her sisters concerning the game of love. Another hint from the much-married Peggy is, "Just keep them wondering; it is better to have illusions than a shattered romance." She tells the girls to wear black as much as possible, and, in the matter of makeup, "gild the lily, but don't make it glitter."

## AMERICAN LEGION TO GATHER NEAR CRADLE OF TEXAS LIBERTY

SAN ANTONIO, Tex., Sept. 25.—In the shadow of The Alamo, most sacred of all war shrines to Texans, America's participants in the World War will assemble here October 8 for the 10th annual National Convention of the American Legion.

The Alamo, known to Texans as the "Cradle of Texas Liberty," has been carefully preserved. A visit to the Lone Star State is considered incomplete without a visit to the building in which Texas' first major battle against Mexico was fought on March 6, 1836, four days after Texas declared its independence.

An attendance of more than 75,000 is anticipated at the convention, according to the local housing committee. More airplanes will be used by visiting legionnaires for this convention than at any previous one. Reports of flight parties have been received from New York, Brooklyn, Mass.; Cincinnati, Cheyenne; Kankakee, Ill.; Clearfield, Pa.; Los Angeles, and Columbus, Ohio. Whereas the defenders of the Alamo, all of whom were slain, had only muzzle-loaders, the convention here will devote much of its attention to the most modern method of combat—airplanes. Efforts are being made to mobilize 1,000 airplanes here during the convention. Col. Charles A. Lindbergh has accepted an invitation to be one of the principal convention speakers. He is expected to emphasize the importance to the nation of an adequate aerial defense.

With Brooks and Kelly fields located nearby, San Antonio is one

of the aviation centers of America. Hundreds of army fliers are trained at these two fields annually. All planes stationed at these two fields and at Fort Crockett, near Glaves, Tex., will participate in the aerial program planned for the convention. Many of the planes participating in the recent national air races also are expected to be here.

The government of Cuba, Canada and Mexico will send squadrons of airplanes to the convention. The War Department has been requested to order all World War pilots still in army service to San Antonio for a reunion of war pilots. Canada will lead the parade by

virtue of its increased American Legion membership. The next three states in line, determined by the per cent of increase in membership during the past year, will be Alabama, Louisiana and Mississippi.

## Corn Brings More Money "on the Hoof"

THE best authorities agree that "hogging down" corn is a profitable practice. Run out temporary fences through your corn and turn in your hogs. They are the best of harvesters—never miss an ear. You save the cost of husking, hauling, cribbing and feeding and get your hogs to market quicker and in better condition.

And for these temporary fences, as well as for permanent fences, use Red Top steel posts. These can be driven at the rate of 200 to 300 a day, through the hardest soil, by one man using the One Man Driver. Are easily withdrawn and re-driven in a new location.

## Red Top Steel Fence Posts

You will save a lot of fence making and repairing time every year if you repair old fences and make new ones with Red Top Steel Posts. Any fence erected on Red Tops is there sound and secure for many years of service and enables you to practice the modern program of crop diversification and clear more money from your farm.

Stop in and handle a Red Top post. Let us show you why it is a better steel post.

## POLICEMEN SEE WOMAN MURDER MAN

### REFUSES TO REVEAL MOTIVE FOLLOWING ARREST FOR MURDER

#### Officers Called To House Witnesses To Shoot-

ing

TOLEDO, O., Sept. 25.—In the presence of two policemen a woman shot and killed a man in her home here today.

The fatal shooting climaxed what police are inclined to believe as a lovers' quarrel, although the woman, Mrs. Marjorie Nye, who is held in the Safety Building on a charge of suspicion, refused to discuss her motive in the slaying of Arthur Gingerich, 35, alias the "Frog."

Mrs. Nye, mother of two children, who were not at home, admitted firing the shots were ended Gingerich's life.

Patrolmen Charles Crane and Casimir Krolewski, who witnessed the shooting and whose lives were endangered, had gone to the house on complaint of a disturbance there.

Just as the policemen entered the hallway the door of Mrs. Nye's apartment was opened, and Gingerich, bleeding from a wound in the neck, staggered out.

"Take me to a hospital," he begged the officers.

Scarcely had he finished speaking, the patrolmen said, when Mrs. Nye appeared at the door, and fired point-blank at Gingerich, the bullet entering his abdomen. Police assumed one shot had been fired before their arrival.

The house gave mute evidence of the struggle which led to the fatal shooting. Rugs and furniture were disarranged, and the floor of the living room, dining room, and kitchen was stained with blood.

Detectives say Mrs. Nye admitted having had friendly relations with Gingerich for three years. She refused to discuss incidents which caused the fatal quarrel, and police say Gingerich gasped out it was his fault just before he died.

The victim of the shooting is said to have a wife and three children, living in Napoleon, O.

### HOOVER WILL MAKE DIRECT TRIP SOUTH FOR TENNESSEE TALK

#### Only One Outside Visit Planned By Can-

didate.

WASHINGTON, Sept. 25.—Herbert Hoover will make a swift direct trip to Elizabethton, Tenn., next week for his southern campaign speech, according to announcement today from personal headquarters of the Republican presidential candidate.

The nominee and his personal party will leave Washington Friday October 5, pausing Saturday at Bristol, Tenn.-Va., for a rear platform appearance.

Arrangements have been made to accommodate 150,000 persons at the first political rally a Republican presidential candidate has staged in the solid south in recent years.

The speech had to be held in the afternoon to enable farmers to get back to their homes before sunset.

Special trains are being run from four adjoining southern states.

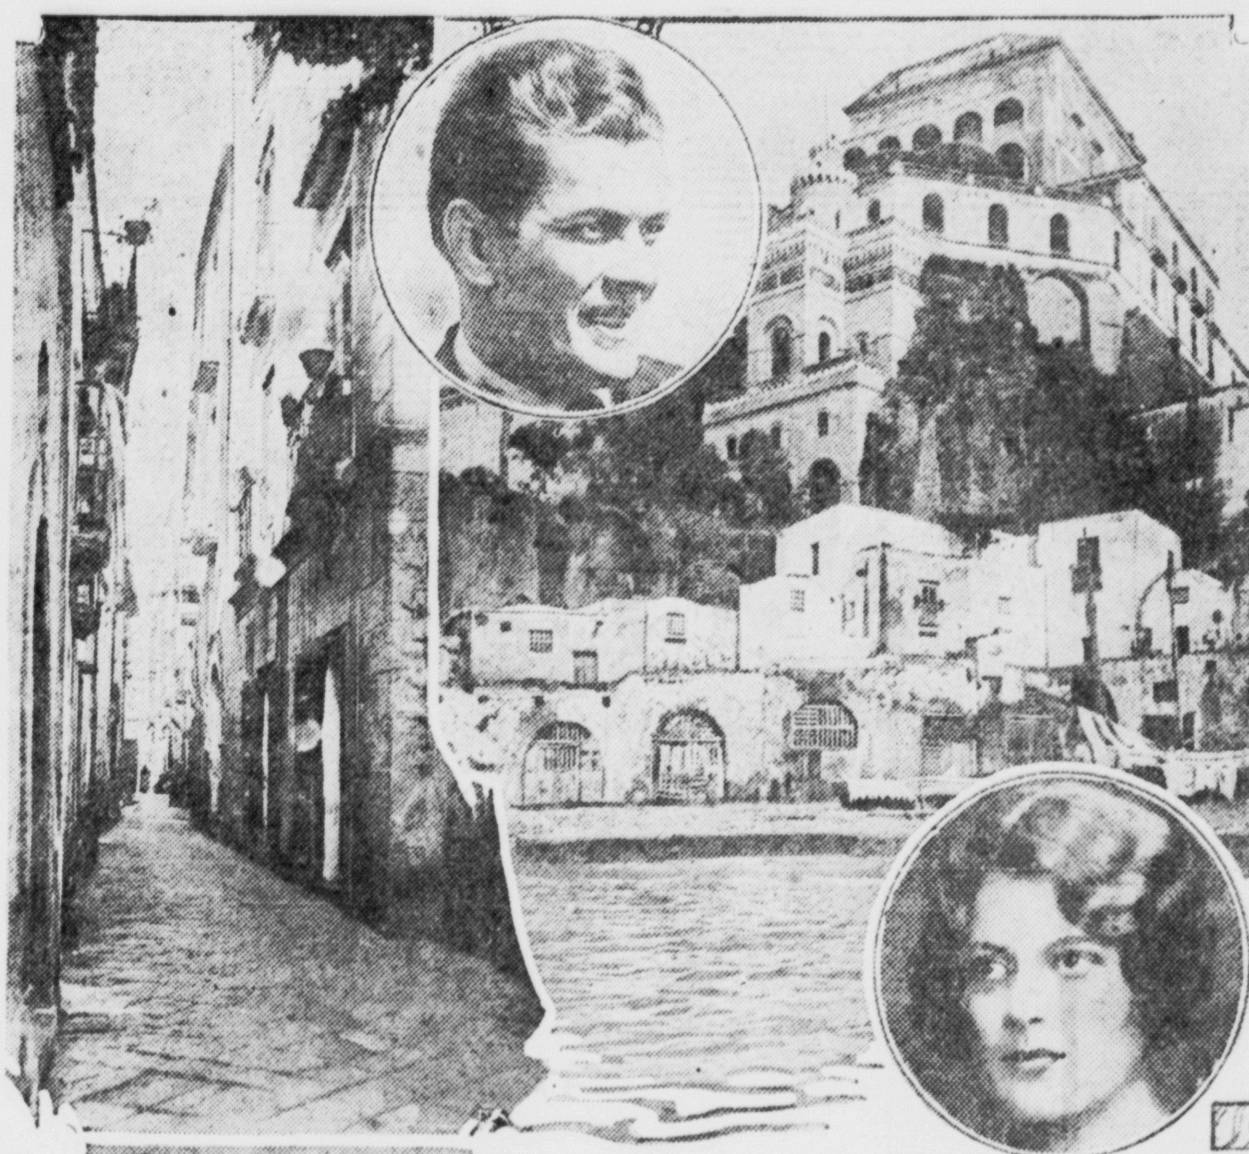

Concluding his speech, Hoover will motor to Johnson City, forty miles away, to visit a large veterans' hospital. He will deliver a five-minute speech to the veterans, boarding his special train for the return trip to Washington about 6 p. m. E. S. T. He will arrive back here early Sunday.

## FOUR YOUNG PEOPLE KILLED AS SPEEDING AUTO OVERTURNS

### CORONER SAYS AUTO TRAVELED TOO FAST TO NEGOTIATE TURN

#### Victims Crushed In Wreckage Under Heavy Truck

CINCINNATI, O., Sept. 25.—Two Bellefontaine men, a Danville, Ky., girl and a Cincinnati girl were killed here last night when an auto, speeding at sixty miles an hour, swerved, overturned twice and rolled under a heavy truck.

The dead: Austill Ritchie, 18, and Wilbur Ritchie, 22, brothers, Bellefontaine, Ohio.

May McDonald, 19, Danville, Ky., and June Bastaine, 17, Cincinnati.

Speeding was the cause of the accident, Coroner F. C. Swing said.

"The death car was speeding so fast that the driver could not make the bend," Dr. Swing said, "then when the driver saw the trailer truck ahead of him he attempted to swerve to the right. The auto was going too fast and it turned over twice, on the second roll going under the truck."

The impact was so great that the top of the sedan was torn off and then crushed under the wheels of the heavy truck and trailer.

All four were caught in the car and their bodies mangled.

One victim was breathing slightly when placed in the patrol but died very shortly after reaching the hospital.

### LACKS AUTHORITY IN CLEVELAND CASE

### HEAVY RAINS CAUSE MORE SUFFERING IN STRICKEN SECTION

#### Weather Hampering Re-

lief Workers In  
Everglades.

WEST PALM BEACH, Fla., Sept. 25.—Flood waters in the Everglades were swollen today from heavy rains that made more difficult burial or cremation of the hundreds of exposed hurricane dead.

The rain was severe here during the night. For a time the city was in darkness when power lines went out.

A. L. Schafer, Red Cross relief director, returned last night from an inspection tour of the hurricane-ridden shores of Lake Okeechobee to report that the death toll of the storm would be more than 2,200. He estimated it would be a month before flood waters in the area subsided.

Schafer found that his fears regarding the little community of Pelican Bay were borne out. Scattered bodies led him to believe that the 450 inhabitants of the town had been drowned.

The stricken territory had been divided today into sections so that relief groups could wage a health campaign to prevent epidemics.

The 15,000 refugees remain free from illness, and sanitation in all relief camps is excellent, Schafer said.

### DAVIS WILL SPEAK AT PYTHIAN MEET

CLEVELAND, Sept. 25.—James J. Davis, United States secretary of labor, was to address the opening session of the 59th grand lodge of the Ohio Knights of Pythias here today.

Alva M. Lumpkin of Columbia, S. C., supreme chancellor of the order and George F. Eubanks of Atlanta, Ga., past imperial prince of the Drastic Order of Knights of Khorassan were to speak also.

Registration figures indicated that there are more than 25,000 knights and sisters, with their families, attending the meeting.

### UNITED STATES MAY OFFER LIMITATION SUBSTITUTE PLAN

#### May Be Included In Answer To Anglo-

French.

WASHINGTON, Sept. 25.—A suggestion that the United States offer a substitute program from limitation of cruisers and submarines in place of the proposed Anglo-French Naval plan, is being considered in official circles, it was learned authoritatively today.

Whether such a suggestion will be incorporated in the note the state department soon will send to London and Paris has not been determined. The proposal has not been submitted to President Coolidge, it was said, and naval officials meantime are reported as viewing it with disfavor.

Details of the projected note were discussed at a lengthy conference Secretary of State Kellogg held with Secretary of Navy Wilbur, Admiral Charles F. Hughes, chief of naval operations, and Admirals Hilary P. Jones and Andrew T. Loeb, delegates to the 1927 naval conference in Geneva.

Afterward it was semi-officially reported the American reply to the British and French notes of six weeks ago was rapidly nearing completion, but later it developed certain technical questions had arisen, the disposal of which probably will delay the note a day or two. It was said at the state department that the American note can be expected to foreshadow the early demise of the as yet unpublished Anglo-French agreement. Under no circumstances, it was declared, will the United States agree to further naval limitation on the basis proposed by England and France.

### STATE EXAMINERS FIND \$4,989 ILLEGALLY PAID OUT BY CITY

COLUMBUS, Sept. 25.—State examiners today reported to the State Bureau of Accounting an examination of offices of the City of Xenia, Greene County, covering a period from September 1, 1926 to June 18, 1928, showing an illegal payment of \$4,989.61; a finding for adjustment of \$9.73 and findings for recovery of \$250.05.

The illegal payment, they found, included \$545.40, paid to Ellsworth Weaklin, for janitor work under an ordinance which had been repealed; \$1,780.61, paid the Foster Engineering Co., and \$2,663.60, paid Stiles Co. The latter two items were for work let without contract.

In the finding for recovery, John Preusch, Bessie Kennedy and Mary Kennedy allegedly received overpayment of wages of \$6.83, \$11.86, and \$7.45, respectively. The finding for recovery also included \$141.70, paid the county from the city and \$1.90 to the state from the city. Both amounts had been paid, the report shows.

A finding of \$89.32 was returned against the Citizens' National Bank, Xenia, in favor of the city and represents interest due on deposit.

### HUGE SEWER GRAFT CASE GOES ON TRIAL TUESDAY IN NEW YORK

NEW YORK, Sept. 25.—New York's most gigantic graft scandal of recent years—the \$30,000,000 Queens sewer case—goes to trial today after a year of sensational developments which rocked the city's political circles.

In the antiquated Queens County courtroom at Long Island City where Ruth Snyder and Judd Gray heard the death sentence, former Borough President Maurice E. Connelly and Frederick B. Seelye, his engineer in charge of sewer design, will face a special "blue ribbon" jury. They are charged with

### JAP PLEADS GUILTY TO MURDER CHARGE BUT PLEA IGNORED

#### Uncle Of Slayer Relates Incident Blamed For Act

HONOLULU, T. H., Sept. 25.—Myles Fukunaga, 19-year-old Japanese who confessed the kidnapping and killing of Gill Jamieson, ten-year-old son of Frederick Jamieson, banker, has been indicted for murder and has pleaded guilty to the charge.

Judge A. E. Steadman ordered the plea set aside, however, and a plea of not guilty entered. He ordered the slayer to appear in court again today, and if at that time Fukunaga's parents have not provided counsel, Judge Steadman will appoint an attorney for him.

The youth was rushed to the court in secrecy late yesterday and returned to the prison before it was known generally he had been arraigned. There was no demonstration.

Johubiko Fukunaga, an uncle of the confessed slayer, told authorities today that he believed the seeds of the boy's desire for revenge were sown last April.

At that time, he said, his nephew was ill at his home, suffering from heart trouble and cerebral anemia. During his illness a collector from the Hawaiian Trust Co., of which Jamieson is vice president, called at his home and demanded two month's rent from Fukunaga's mother.

After arguments and pleas for more time, he said, Mrs. Fukunaga took the money and when the collector had left threw herself on the bed beside the sick boy and sobbed for an hour.

The uncle believed the matter had been on Fukunaga's mind since that time.

### WOMEN SAVED WHEN HOSPITAL BURNS

CLEVELAND, O., Sept. 25.—Five young women, trapped by smoke on the second floor of a maternity hospital were carried down ladders to safety early today by firemen.

The rescue was directed by Fire Capt. Alex Skaleski. Two of the women, suffering from severe shock were removed to another hospital. Nine others got out without assistance.

Damage by fire, smoke and water amounted to \$2800.

### TWO KILLED WHEN TRAIN HITS TRUCK

WARREN, O., Sept. 25.—Two persons were killed and a third injured when the truck in which they were riding struck a Cleveland train struck by a fast freight on the Niles Road, crossing the Pennsylvania railroad here last night.

The dead were Michael White, 17, and John Colapiedro, 42. The injured person is Miss Peggy White, a sister of Michael. The three lived in Girard.

WILLIE HESTON JR.

ANN ARBOR, Mich., Sept. 25.—William Heston, Jr., was in the freshman football uniform at the University of Michigan today to groom himself for a halfback position.

Heston was hailed as the successor of his father, Judge Heston of Detroit, the "wonderful Willie" of the famous Michigan football team 25 years ago.

### Killed by Husband

Mrs. Jeannette Graham, of Quincy, Mass., who was shot and killed by her husband, William Graham, 35, a former sailor, when she spurned his pleas for a reconciliation. The tragedy took place in full view of more than a score of persons sitting on front porches of their homes.

### THEATER FIRE TOLL STANDS AT SEVENTY AS PROBE LAUNCHED

#### Ten Doctors Conduct Au-

topsies; Tales Of Hero-

ism Told.

MADRID, Sept. 25.—Tales of heroism and horror were still being told here today after the fire in the Novedades Theater in which seventy persons lost their lives.

All theaters closed out of respect for the dead.

When fire broke out most of the 1,000 persons who were in the theater stampeded.

The gallery stairway terminated near the bar and the attendants hurried bodies into the street. The injured who fainted amid the confusion would have died if they had not been taken out immediately for they would have been trampled upon by the milling masses of human beings who were locked together.

One man, who had gone to the theater with his wife and four children, saw them die before there was a chance for the rescue forces to reach them. He pulled out a pistol and committed suicide.

The bodies of five persons were found, with the hand of each grasping a knife with which they vainly had tried to fight their way out of the building.

Joaquin Monasterio, head of the fire department, announced that sixty-one bodies had been recovered and that nine persons had died of injuries.

Firemen are keeping a close watch on the ruins of the building.

Primo De Rivera, premier, had visited the scene of the tragedy twice, expressing great grief and sympathy for the families of those who lost their lives.

It is estimated that the property loss will amount to 1,000,000 pesetas. The theater was insured for 250,000 pesetas.

Ten physicians are conducting autopsies.

LONDON, Sept. 25.—King Alfonso of Spain attended requiem mass at St. James Church today in honor of persons who died in the fire at the Novedades Theater, Madrid.

### PORTUGAL SUFFERS FROM SEVERE STORM

LISBON, Portugal, Sept. 25.—A severe storm, accompanied by a driving rain and strong winds, caused enormous damage in Portugal yesterday and today. Many districts were flooded.

The damage around Oporto and Gaia was exceptionally heavy. Floods also occurred here. At Cascaes, two ships were sunk during the storm. The crews escaped by swimming ashore.

### PLAN TO EXECUTE ALLEGED SLAYER

COLUMBUS, O., Sept. 25.—Unless court action or executive clemency intervenes, John Bradshaw, 50, colored, Columbus, will die in the electric chair tonight for the murder of Katie Young last February.

Bradshaw shot and killed the woman when he discharged a shotgun pointed through a window of the home in which she was, according to evidence at his trial. He insisted at his trial that he did not know the date or any of the details of the slaying.

ESCAPE IS FOILED

ATHENS, O., Sept. 25.—Six prisoners, sawing their way to freedom, were forced to give up the attempt when the iron bars held, Sheriff William Williams announced today.

### TENTATIVE RATE IS TWO DOLLARS LESS THAN FORMER RATE

#### Auditor May Adjust Rate At \$22.50 For This Year.

Xenia city's tax rate for 1928 has been tentatively lowered by County Auditor R. O. Wead from \$24.50 to \$22.50, a reduction of \$2.

In fixing the tentative rate, subject to the approval of the County Budget Commission, Auditor Wead, in a letter mailed Tuesday to the various taxing bodies within the city, extended an invitation to meet with the budget commission before the final approval of the rates.

The taxing bodies are asked to notify Auditor Wead by 10 a. m. Wednesday, September 26. Otherwise the rates will be certified to the State Tax Commission for final approval.

Auditor Wead also explained in the letter exactly how the \$2 reduction will be accomplished. The state reduction will be 60 mills, or 70 per cent; the county reduction, 70 mills, or 14.50 per cent; the city school reduction, 15 mills, or 1.16 per cent; and the city reduction, 60 mills, or 10.91 per cent. The township increase is .05 mills.

The proposed city levy within the 15-mill limitation will be \$15 and outside of all limitations, \$7.50.

Following is a table showing the proposed levy for the various city taxing bodies for 1928:

	15-Mill	No Limit	Total
State bonus	\$ .25	\$ .25	\$ .50
County	\$ 3.10	1.00	4.10
Schools			
County levy	2.65		
Local levy		2.50	2.50
Int. and Sink	1.50	3.60	12.85
Township	.15	.05	.20
City			
General	3.66		
Int. and Sink	1.24		4.90
Library	.20		.20
Total	\$15.00	\$ 7.50	\$22.50

Auditor Wead announces tentative rates have been fixed for forty-eight of the fifty-two taxing districts of the county for this year. In forty-two of the districts, the tentative rates are lower than 1927, in five districts they are higher and in one district the rate remains the same. Rates have not been fixed tentatively for four districts.

### JAWARSKI'S PAL IS HELD FOR ROBBERY

STEBENVILLE, O., Sept. 25.—"Slim" Bogoski, reputed member of the "Flathead Gang" organized by Paul Jawarski, Pittsburgh bandit now held in Cleveland for the murder of a policeman, was to be arraigned today on a robbery charge.

Bogoski is alleged to be one of the trio, that posing as dry raiders, entered the home of John Shetock near New Cumberland, W. Va., last week and stole \$413 in cash and jewelry.

Joe Zuber, identified as the leader of the trio and Stanley Wargenzel, but are in jail awaiting grand jury action in connection with the robbery. Three others arrested with them are at liberty under bond, awaiting hearings on suspicious person charges.

All were arrested in a house formerly occupied by Jawarski.

### QUAKES OCCUR IN GUADELOUPE NOW

PARIS, Sept. 25.—Earth shocks have occurred in Guadeloupe, recently devastated by the West Indian hurricane, the ministry of colonies was advised in a cable today from the governor of the colony.

The cablegram said Point a Pitre, principal town of the islands, was "badly shaken" by earth tremors at 5:30 a. m. yesterday, a few hours after the governor had visited the areas devastated by the storm.

Observatories in the United States and abroad recorded strong earth tremors yesterday.

### CADET SCHOOL SHIP ASKS ASSISTANCE

WASHINGTON, Sept. 25.—The coast guard cutter Chelan has been ordered to the assistance of the Newport, cadet school ship, whose officers reported her in trouble east of Bermuda, the navy department said today.

The Newport lost her propeller, according to word received at the coast guard headquarters here. The Chelan was at sea proceeding to the Bahama Islands as part of a relief expedition when notified of the Newport's plight.

## WILL END SERVICE

P. J. Sweeney, Dayton, conductor on the Chillicothe-Dayton run, of the Baltimore and Ohio Railroad, will celebrate his fortieth anniversary with the company next Sunday by retiring.

Sweeney is well-known by passengers on this line that passes through Xenia.

After riding on many types of trains on the company's lines, he spent the past few months on the electrified train on that route. The one-lung chuggers of the eighties and the gay nannies, to the electrified coaches in use today, have carried Mr. Sweeney on thousands of trips during the last half century. He was with the Erie road thirteen years before going with the B. and O.

## REV. MANTLE HEARD BY COUNTY COUNCIL OF RELIGION UNIT

The Rev. W. N. Mantle gave the address of the afternoon, when the Paintersville Unit of the Greene County Council of Religious Education met at Mount Tabor M. E. Church, Sunday afternoon. A good program of music and talks was given.

The Rev. Mr. Mantle stressed how much is expected from so little put into the Sunday Schools. He brought out the need of trained teachers in the Sunday Schools as well as week-day schools. He also emphasized the pupil-centered curriculum, or a curriculum in the Sunday School, around the interests and needs of the pupil.

Two county officers were present and gave short talks on the young people's work just begun in the county.

A banner was awarded to the largest delegation from Eleazar. The next meeting will be held in Bowersville, the date not yet being decided.

The county president of the council says "The Paintersville Unit has proved a success and has functioned better than any other unit in the county. If I could only get all units to work like this one, greater things could be accomplished."

## WIFE GIVEN DECREE OF DIVORCE HERE; OTHER COURT NEWS

Lena Williamson has been granted a divorce from Charles Williamson in Common Pleas Court on grounds of extreme cruelty and was ordered restored to her maiden name of Johnson.

The defendant was ordered barred of dower interest in certain property. The court decided that the plaintiff and defendant must jointly pay off a mortgage amounting to about \$115 on two lots, the defendant to pay seven-eighths and the plaintiff, five-eighths of the sum.

When the defendant has paid his share of the mortgage, the plaintiff shall give her husband a deed to the lot, the court ruled, adding that the parties to the action are each to keep household goods in their possession.

### FORECLOSURE ORDERED

The Home Building and Savings Co., has been awarded a judgment for \$4,284.50 against Orville Pawley and others in Common Pleas Court. Foreclosure and sale of mortgaged property was ordered.

### SEEK PARTITION

Partition of property is asked in a suit filed in Common Pleas Court by James Fred Powell against Alice Crawford, John Crawford and The Home Building and Savings Co. The savings firm claims a mortgage interest in property described in the petition. H. D. Smith is attorney for the plaintiff.

### NAMED ADMINISTRATRIX

Bessie L. Peterson has been appointed administratrix of the estate of Carl L. Peterson, late of Sugarcreek Twp., with bond of \$8,000 in Probate Court. Jess Hass, Frank Wright and Perry Sackett were named appraisers.

### MARRIAGE LICENSES

Harold E. Durnbaugh, R. R. No. 8, Dayton, bookkeeper and Grace E. Miller, R. R. No. 3, Xenia, Rev. Eidemiller.

### HIGH SCHOOL NOTES

The first meeting of the Student Council, which consists of home room representatives and class presidents, will be held this week. At this meeting it is hoped that all plans for the publication of the Central High "Review" school weekly, may be made and the date for the first issue set. Other matters of importance are also expected to be brought before the council.

Regular practices of the orchestra and Glee Clubs are well under way and the students taking part have already reached what we may call "mid-season form."

The Glee Clubs are holding five rehearsals weekly under the direction of Hugh Miller in preparation for their operetta, "Miss Cherry Blossom," which is to be presented soon.

The "jolly friend" of "Oswald," (tackling dummy of the football squad) will be introduced to the student body at an assembly early this week. The identity of "Oswald's" friend has not been announced but it is reliably reported that he is also connected in some way with the football team.

E. G. Whitworth is directing orchestra practice session four days each week and is highly encouraged by the showing of his proteges.

## L. E. ELLIS, NATIVE OF GREENE COUNTY, CLAIMED BY DEATH

Lewis E. Ellis, 58, president of the Gem City Ice Cream Co., Dayton, and native of Greene County, died at his home, 2400 Harvard Blvd., Dayton, Monday evening, following a cerebral hemorrhage, suffered while driving home.

His condition was not considered serious when he reached home after the attack but he died a few hours later.

Mr. Ellis would have celebrated his fifty-eighth birthday Tuesday. He was born in Bowersville, September 25, 1870. He was a member of the board of directors of the Dayton Kiwanis Club and was affiliated with many other clubs and lodges in that city. He was a member of the Blue Lodge, Shrine, Knights Templar and Scottish Rite of the Dayton Chapter of Masons and was also a Knight of Pythias.

He was a member of the advisory board of the Dayton Savings and Trust Bank of the Grace M. E. Church.

He has been interested in the ice cream industry a number of years, his first position being with an Indianapolis ice cream manufacturing concern in 1892. He organized the Gem City Ice Cream Co. in 1901 and in 1903, George D. Antrim, Dayton, was made partner.

Mr. Ellis leaves his widow, Mrs. Anna Zimmerman Ellis; a son, Herbert, and a daughter, Mrs. Helen Hall, wife of J. Alfred Hall, Durham, N. C.

Herbert Ellis started on a tour around the world with a professor from Ohio Wesleyan University Saturday and word of his father's death reached him in Nevada.

Mr. and Mrs. Hall have been visiting Mr. Hall's parents and had started Monday for their home in the south.

One brother, Bonner Ellis, near Xenia and two sisters, also survive. Funeral arrangements have not been made.

## ATTACK ON OUTDOOR ADVERTISING GIVEN BEFORE STUDENTS

"Save the beauty of the American landscape is no place for outdoor advertising," was the slogan of the National Organization for the Restriction of Outdoor Advertising stressed by Mrs. Walter Lawton in an address before the student body of Antioch College Monday morning.

Mrs. Lawton declared that "no matter what value outdoor advertising may have, it cannot possibly be valuable enough to destroy the beauty of our landscapes."

One cannot travel two consecutive miles from Northern Maine to Florida without being slapped in the face with signs which distort the beauty of the highway," the speaker added.

Mrs. Lawton declared that many of the most prominent national advertisers have agreed to remove signs from the road. These number 22 and include practically all of the large tire concerns. To completely remove all of the signs from the roads, legislation is deemed necessary by Mrs. Lawton.

A few stereotypical slides were shown at the close of her talk. These portrayed examples of how scenic landscape is ruined by bill boards.

## SECOND CHILD IN FAMILY IS CALLED

Lawrence Williamson, three-year-old son of Mr. and Mrs. Clarence Williamson, Harbine Ave., died Monday afternoon at 4:30 o'clock from enteritis, a stomach complaint.

Another child, Clarence, Jr., died last week. Both children were stricken after they had eaten grapes, the second child shortly after the family returned from the funeral of Clarence.

Surviving are the parents, and one sister, Betty Jean and a half-brother, Leroy Coates.

Funeral services will be held at the house Thursday at 2 p. m., with burial in Woodland Cemetery.

## ITCHY PIMPLES ON FACE

Festered and Very Sore Scratched in Sleep Cuticura Healed

The trouble began with pimples on my face. They were not very large but were red and festered. The pimples were very sore and itched and burned at times so that I scratched them in my sleep.

I began using Cuticura Soap and Ointment and they gave relief at once. I continued using them and in about three weeks was completely healed, after using one cake of Cuticura Soap and one box of Cuticura Ointment. (Signed) Miss Evelyn Dryden, Hermitage, Mo.

Daily use of Cuticura Soap with touched-up Cuticura Ointment as required, keeps the skin fresh, smooth and clear. Cuticura Talcum is an ideal toilet powder.

Soap 25c. Ointment 25c. and 50c. Talcum 25c. Sold everywhere. Sample each free. Address: Cuticura Laboratories, Warren, N. H.

## FEEDING OF NEEDY IS EMULATION OF MASTER

There is in the city of Xenia an organization called the Parent-Teacher Association which deals directly with our public school life. One of the big things which this organization is doing is providing a hot meal every school day for undernourished school children.

Children who have not the proper food, or the proper amount of food, are not only physically unfit for school life, but mentally unfit as well. It is this condition among some of the children in Xenia which the Parent-Teacher Association is doing much to correct.

Last year from fifty-two to eighty school children were fed every school day with a well-balanced and a carefully planned meal, and every one of them gained physically and mentally. During the entire school year three thousand meals were served to pupils from the McKinley school, and thirteen hundred and sixty meals to pupils from the other schools. This means four thousand three hundred and sixty meals were provided during the school year. In this way the Parent-Teacher Association is doing more for the needy school children than any other organization could possibly do, and doing it intelligently. For this reason it is worthy of every consideration.

Few people know of the poverty and need which are to be found in some of the homes of our city. Just last year in one of our public schools one of the pupils there brought his little brother who was not of school age to his teacher to get him one of the hot meals which the P. T. A. provided. When it was explained to him that only children in school were given meals, he said, "Well, we didn't have any supper last night, and we had no breakfast this morning, but I had a good dinner yesterday, so give my dinner today to my little brother." It is needless to say that a way was provided whereby both boys that day had something to eat. That is only one instance out of many that might be given to show the need. Such need of children in school is thus being met by this organization.

The money needed to carry on this good work is raised by the Parent-Teacher Association through solicitation of funds from the citizens of the city. Next Thursday, September 27, the association has set apart for this drive. The amount asked in that drive is only \$1,000.00, and surely every one who is financially able will want to contribute his or her share to this good work.

It was the Master himself who said one day as he was speaking of those who fed the hungry and clothed the naked, "Inasmuch as ye have done it unto one of the least of these, ye have done it unto Me."

REV. H. B. MELREE, Second U. P. Church.

Mrs. Rosa Scott, Mrs. Virgil Allen, Mrs. Bettie Ballard, Mrs. Belle Ross and son Winham, and Prof. Arthur Taylor were Sunday visitors in Washington C. H. They were guests of Mr. and Mrs. Joseph Crosswhite and also attended the revival service at the Church of God.

The St. John's Baptist Church concert company gave an excellent program Monday evening at the indoor Chautauqua now in session at the Zion Baptist Church sponsored by the young people with Mrs. A. C. Hawkins, their enthusiastic president, who has made all preparations for this affair to be a success. The concert program was as follows: solo, Mrs. Aattie Reed, chorus, "I've an Interest in the Glory Land"; instrumental, Miss Marian Bennett; solo, Mrs. Mabel Young, entitled "A Mansion for Me"; reading, Miss Edith Clark; choir, "Certainly Lord"; solo, Mr. Howard; medley solo, Mrs. Charles Lockett. About twenty-five persons from Springfield accompanied the participants.

Mrs. Rosa Ware and daughter Rosella, who have spent the summer months in Detroit, Mich., have returned after a few days visit with relatives and friends here.

Mr. L. L. Harris and Elsa Jones of Dayton, were business visitors here Monday evening.

Tuesday night will be Urbana

night at the indoor Chautauqua at the Zion Baptist Church. Mrs. Mary Church of that city will have an address on Negro achievements, which will be of interest to all who may hear her. With the message from Mr. Myers Y. Cooper, of Cincinnati, the Republican candidate for Governor it promises to be one of the banner evenings of this indoor affair. This is a special privilege and all should avail themselves of this opportunity to hear these distinguished visitors. The Chautauqua Chorus of fifty voices will open the program.

Principal Arthur Taylor also made fitting remarks.

Mr. R. A. Braxton, teacher of English made an appeal to the students to give their moral and financial support to the football squad by forming an athletic association and the payment of dues in order that funds may be obtained with which to adequately equip the team.

The first motion picture show, sponsored by the East High P. T. A. will be Tuesday night, October 2.

Milton Sills will be featured in "The Valley of Little Giants."

At the regular chapel hour last Friday, the Junior and Senior High School students observed a program in commemoration of "Emancipation Day."

Principal Arthur Taylor presented Mr. H. O. Mason, the manual arts teacher of East High School who spoke on the "Progress of the Negro since 1862."

Mr. Mason said, "If the progress of the Negro in the next sixty-five years increases in the same proportion as it has in the past, the security of the race need cause no fear."

## BIBLE THOUGHT FOR TODAY

BLESSED ARE THE MEEK—The lofty looks of man shall be humbled, and the haughtiness of men shall be bowed down; and the Lord alone shall be exalted in that day.—Isa. 2:11.

## ENTHUSIASM FOR FOOTBALL

A characteristic autumnal sight is the squad of huskies and recruits gathered on college and school football fields, preparing for the battles to come. It is serious work as they rehearse each detail of play, and go through severe exercises to develop wind and muscle. The interest of the public gradually gathers. Soon the crowds are wending to the football seats. As the weather grows cooler, the fur coats come out, and the crowd grows bigger.

In many games the players play through a continuous rain or snow storm, and the spectators are likely to remain until the final whistle blows. Some persons remark that they would not stay out in such a storm for any amount of money. Yet those who brave the storm do not seem to mind it. Many of them are wet to the skin, but when people's enthusiasm is aroused the danger of the exposure is lessened. The way people will go through such experiences shows what a hold this fascinating sport has.

The popular love for this game seems to be based on two principles. First, the love of a winner. Our people admire success and achievement. They like people who do things against obstacles.

They admire, of course, fine physical development, but that is not the primary interest of the football field. They like to see a player go through the opposing line, in spite of all those powerful fellows waiting to trip him up and pile on top of him.

They admire anything that is skillful and scientific and brainy. They recognize this game as not so much a struggle of beef and muscle, as one of brains and planning and wit and strategy. The nimble agility of the player who advances the ball appeals to their imagination, and they cheer for him and sit out in the rain to see him do it. It is a good, wholesome activity, that does credit to American spirit.

## AIR STUNTS AND HAZARDS

The army air service has decided not to participate in the military free-for-all contest for pursuit planes in the national air races. Whether this decision was made as a result of the Commerce department's recent protest against competitive stunt flying has not been disclosed. Possibly, however, military chiefs agreed with civilian officials that, while knowledge of "stunting" is necessary to the war flier, exhibitions of dangerous aerobatics have little value in creating public confidence in commercial aeronautics.

The entire trend of aviation as encouraged by the Commerce department is toward safety and reliability. In this field airplanes have achieved extraordinary success when flown under conditions which eliminated all unnecessary strains and hazards, the disappointing results of the transcontinental air races notwithstanding. In that event airplanes were required to perform an unusual feat. They were laden with fuel to the limit of their carrying capacity, they were stripped of all equipment not absolutely necessary to successful flight, and they were competing in speed. Naturally, with a rich prize before their eyes the pilots found it difficult to refrain from pressing their motors to the straining point.

Like any other mechanical device, an airplane motor endures longest when run at minimum speed. The failure of the race did not indicate so much that aviation has fallen below expectations as that transcontinental non-stop races must still be classified as "stunts."

British builders have invented cork houses. Will a man staying out late be obliged to carry a corkscrew?

## TIME

One who has no appreciation of the possible value of the time of another is selfish and very often the worst form of bore. Your friend's time may be of very little value but you are not courteous if you do not at least assume that it is valuable and behave in accordance with that idea. To go into any man's office and stay an hour unless you are sure you are welcome is taking a chance. You are taking the chance of getting on the "list to look out for."

## CAN'T LIVE ALWAYS

The man who rises to a better job by "double crossing" another, or the organization which lends its power to condemn a good man or support one who does not deserve it, may seem to prosper for a time. Unless the whole world is entirely upside down no man can stand long on a rotten foundation.

## BOOKKEEPING

Few of us can resist the temptation to keep dishonest books. We hate, above all else, to tell ourselves the truth. We have figured all sorts of ingenious ways of figuring how we can afford this and that and the other thing. We make all sorts of curious plans for refinancing ourselves, hardly realizing that we are fooling ourselves and merely using figures to deceive. It takes a strong and wise man to keep honest books on his own finances.

## POLITICS

It is quite wrong, of course, to advise young men not to go into politics. This country needs young men in politics. Politics may be dirty but politics can be made clean when enough of the right sort of people get in and change the methods. But it's no sweet and easy life and it takes a fighter to make a success. Young men should give a lot of thought to what they are going to be up against—and old ones too—before they plunge in and run for office.

The Diary  
of a  
New Yorker

By CLARK KINNAIRD

NEW YORK—One of O'Henry's stories has to do with a professional sharper who had no luck at all in selling gold bricks in the "sticks," but has a rushing business when he starts auctioning them in New York.

Gold-brick selling is one of the principal industries of the Times Square district. They are hawked from early morning until late at night at "jewelry" auction rooms in Broadway, 42nd street and Sixth avenue.

A red flag hangs out of all the places, but fails to keep the suckers out. Phoney gems, cheap watches masquerading under brand names so close to famous trademarks as to be deceptive, and highly ornamental gimcracks are sold to eddying crowds. The houses use various devices to get prospective patrons to believe that the goods offered is genuine and is being sold at a bargain. "Seized smuggled diamonds," "Bankruptcy sale," "Unredeemed pawnbrokers' diamonds," "Advertising Sale," etc.

I am irresistibly drawn to the places, and often stand and watch the auctioneers and their "cappers" play their game for hours, and I am of the opinion that most of the suckers are not out-of-towners, but are New Yorkers. For there is something about New York that makes a man a sucker—the stock market, the horse racing pools, life itself in the suburbs, delicatessens and super-movie palaces. New York destroys all the sense of value. It is a place where people are willing to pay 50 cents for an ice cream soda, \$1 for a movie, \$2 for a phoney bottle of wine, \$1.50 for a pound of cooked ham, 35 cents for a head of lettuce, \$10 for a book of smutty stories, when they can get the same things around the corner, if they would take the trouble to look for them, at a fraction of these prices.

And there are other places that hold equal fascination for men along with the jewelry auction rooms. In the same neighborhood, too, along Sixth avenue, in the vicinity of 42nd street, they are employment agencies.

Every morning, in good times or bad, fair weather or foul, little knots of men and women gather outside these agencies to look over the list of attractions. Poorly-dressed women, seedy-looking men, mostly middle aged or past, comprise the groups. Here you'll find tragedy written on faces.

But the other morning, as I stood in front of one of these establishments, a young fellow emerged, bursting with enthusiasm, and with a clip of paper in his hand. He pushed through the crowd hurriedly, and went dashing through the crowds. He was on the trail of a job, apparently, and wasn't going to allow anyone to beat him to it. If speed on his feet meant anything.

What a contrast! Youth hurrying to find something to do, and age merely looking over the list of jobs and turning away. Maybe they, too, in another day, had rushed forth, ready and eager for something to do.

DINNER  
Roast Duck  
Baked New Potatoes  
Apple Sauce  
Fresh Tomato Salad  
Creamed Carrots  
Fresh Blackberry Pie  
Coffee  
Milk for Children  
This menu was planned for a special "company" day. If blackberries are "out" in your neighborhood, use other berries or green apples for the pie.

Today's Recipes.—One tablespoon gelatin, one-fourth cup cold water, one pint blackberries, one cup cream (whipped), few grains salt, one cup sugar. Soak gelatin in cold water five minutes, add boiling fruit juice and sugar, and when almost cold set add berries. Add salt and pour in previously beaten pie shell and when ready to serve, top with whipped cream or meringue.  
Cream Puffs de Luxe.—Bake puff shells from regular recipe and when cold, fill with fruit gelatin which has reached the quivering stage. When set serve with a dab of whipped cream on top, or brush top with a confectioner's sugar icing.  
Baked Apples.—Core sweet apples one for each serving, and fill cavity with pulverized maple sugar, or brown sugar will do. Add a few raisins, a few dabs of butter and put in pie tin, adding just a little water. Bake until tender and watch to keep water in pan so they won't burn.

Jan. Cake  
(Mrs. M. Morton's Daily Tested Recipe)  
One cup sugar, three-fourths cup butter, three eggs, one teaspoon soda, one teaspoon ground allspice, four teaspoons sour milk, one teaspoon ground cinnamon, one cup jam, two cups flour.

## How to Achieve Beauty

By MME. HELENA RUBINSTEIN

COMMON SENSE IN  
BEAUTY CARE CONTINUED

One of the most important of all beauty habits is sleep. If you don't receive sufficient sleep, and what is more important, sufficient restful sleep, you will never keep the beauty you have or attain any more. There is nothing so aging as insomnia. It not only steals away your nervous balance, but it adds years to your age and wrinkles to your forehead. Learn how to sleep, and you will have learned an important part of beauty care.

In the first place, try and teach yourself to relax. Relaxing is not transferring tension. You are not relaxing when you are knitting, for instance. Your brain may be passive and your feet may be passive, but your hands are moving, and that means that there is a nervous tension being carried to your fingertips. Frowning, tapping, other little personal habits which are really nervous habits, must be corrected before you can learn to relax completely.

When you are planning to sleep, do not permit yourself to think over what has happened during the day, or to plan your next day's work. Stretch and turn as much as you wish to. This will tire your body and relax the muscular tension, but when you feel that you are quite ready to sleep, determine to let go. Instead of holding yourself stiffly on the bed, let the bed hold you. Be sure that your windows are open from top and bottom, thus ensuring you a free current of air—and then sleep.

Why Milk Is a Good Food For the Growing Child  
God could not be everywhere; therefore He made mothers.  
—Jewish Proverb.  
Nut Butter vs. Milk  
"Would the use of nut butter for a 21-months-old baby? My baby seldom drinks more than a glass of milk daily, and never more than one pint. He is very fond of the nut butter. So I feed him plenty of it, hoping it will make up somewhat. Have tried chocolate and malted milk, but you suggest anything to induce him into drinking more milk?"  
MRS. B.

There are three reasons why milk is such a good food and these are: 1. Its complete protein (building and repair food). 2. Its lime (calcium) (necessary for proper chemistry of the body and bones and teeth). 3. Its growth vitamin. In order to evaluate nut butter as a substitute for milk we would have to think of these qualities for any diet, but naturally they are more important during growth.

The chief nut butters are peanut and almond. Both of them have a very high-grade protein. Animal experiments show it is a good building protein, so on the first count they are alright.  
Now the lime. The almond has an even higher percentage of lime than milk. Milk has 12 grams in an ounce; almonds have 239—almost twice as much; but the peanut has but .7, or about

half as much as the milk. So we have almonds O. K. on the first two counts.  
Now the third—the growth vitamin. All nuts are low in this, while good milk is very high in it. Therefore, while nuts and nut butters will take the place of milk so far as protein and lime are concerned, they will not take the place of milk so far as the vitamin A is concerned. And this is important.

So let baby have some nut butter if he likes it, but see that he gets the three glasses of milk a day, also. If he likes the nut butter so well, don't give it to him until he has had at least his two glasses as a drink. The other you can incorporate in his food by cooking his cereals in it and making gravies, etc.  
We have a list of modern books on the subject of child feeding which you may have, Mrs. B.

Mrs. G.—Your doctor has told you that you are all right physically and mentally to have a child. Now your husband should go for an examination, for the husband is at fault in 25 to 50 per cent of the cases. You have been married only a year, however, and you are young, so don't be discouraged. Remember that first babies have come 19, 15 or even 20 years after marriage.

We have written quite a good deal lately on the diet for fertility. In general, you should have a balanced diet with a full share of vitamins, and not allow your self to get overweight. If you are overweight, reduce.

We have an article on Balanced Diet and a pamphlet on the subject of gaining and reducing weight which you may have.

Mrs. H.—The uterus normally tips forward but it is suspended by ligaments and can move fairly freely backward and forward in the pelvis.  
No, the exercises you use for good health and reduction will not cause the uterus to remain fixed in the wrong position. In fact, the exercises of the trunk very frequently correct wrong positions, for they strengthen the abdominal muscles, the ligaments and all the tissues of the body, and give the right posture. This gives the correct pressure in the abdomen.  
We have an article on the Abdominal Wall which gives some splendid exercises to the trunk. See directions.

## FEATURES

Behind the Scenes in  
Washington

By CHARLES P. STEWART

NEW YORK — Young John Coolidge probably did not have to answer many "ads" to land that \$30-a-week job he is holding down in the New York. New Haven & Hartford general offices, up at New Haven (Conn.). To say that John makes his debut as a railroad man under no more favorable auspices than the average youngster would be bunk, of course.

It is mighty difficult to visualize John as being fired, which happens to the average young man quite frequently. It is difficult to believe that John will not be boosted somewhat—if he needs it—on his way up the ladder. In short, John will get the "breaks," if there is anything in prophecy.

Yet, it is a safe bet that young John's job is no sinecure. Pa Coolidge will have attended to that.

If there is one thing, more than any other, upon which Pa Coolidge's mind is made up, it is that John shall have his own row in life.

John has not had an extra-easy boyhood because his dad was in the White House. On the contrary, I imagine the paternal discipline has been rather extra-strict, because of Pa Coolidge's fear lest his son be spoiled, due to his presidential ancestry.

Anyways, all Washington knows that young John has had to walk a chalkline.

I take it, then, that Pa Coolidge has omitted no precautions to insure an honest-to-goodness apprenticeship for John in the transportation business.

John, as I understand it, is not to stick indefinitely in a clerical position with the New Haven, but is to be switched about, from department to department, to make him an all-around railroad man, which will stand him in good stead when, finally, he graduates into some high executive position.

But I do think that John actually will know his side when he arrives there. He undoubtedly

will be given exceptional opportunities to advance rapidly, but I feel sure that he will be required genuinely to qualify for promotion before he gets it. His official bosses may be a little lenient with him, but not Pa Coolidge.

And will young John have to live inside his \$30-a-week salary in the meantime?

Say! Have you ever heard about Coolidge economy? 'Nuff said.

But how is John going to marry Florence Trumbull, the Connecticut governor's daughter, on a stipend of \$30 weekly?

Ah, let us venture the guess that John will be drawing a better envelope by that time. John has a more dependable future than the "average young man," above referred to. John can calculate his income in advance with fair certainty.

But on this I stand ready to stake all my money—

John will not marry before he is able to support a wife without help from the old folks—beyond a good wedding send-off. It would be contrary to Coolidge principles.

That is, he will not do so with his father's consent, and John is too dutiful a son to disregard the father's orders.

John's submissiveness to Pa Coolidge's commands has been put to the acid test by the latter's insistence on a secret service escort for his son, in his every coming and going, throughout the last two or three years. The "average youth," hating some feature of his home life as they say young John hates this attendance, would have run away to sea.

John has born it—still bears it. Personally he likes William Woods, who follows him as faithfully as his shadow—and a good deal more conspicuously. But oh! when next March comes and his father quits the White House—what he gets rid of William—what joy will be young John Coolidge's!

## Living and Loving

By MRS. VIRGINIA LEE

RIGHT FOOD CREATES  
HEALTHY THOUGHTS  
THOUGHTS BRING JOY

Physicians tell us that if we eat the right food we will go far toward achieving a perfect state of health. If we are ill we immediately check up on ourselves to see what we have done that is hygienically wrong. Do we do the same if we are mentally ill? And wouldn't it be a good thing if we did? Maybe we are feeding ourselves the wrong kind of thoughts and causing mental indigestion. Instead of others being mean and unkind to us, possibly we are not treating them right. And if we tried what doctors call "balanced diet," we would find all right.

A woman writes me at great length complaining of her family. They are so mean to her and she works so hard and is so ill. She wants a personal reply and I shall send her one, but I wonder if she is not, at least partly, to blame for the state of things she complains of.

"Dear Mrs. Lee: I am a young flapper of 17. Last year I met a fellow much older than myself with whom I fell in love. He doesn't know how old I am, but thinks I am at least 20, for I have given him that impression. I heard from him at one time very often, but suddenly he stopped writing. Months passed and I wrote to him again and he answered, still giving me the impression he was thinking of me. I answered his letter but he never did answer mine. Do you think I have hopes of hearing from him again, or ever seeing him? Do you think I should check this heart-breaker off my list and start looking for someone else?"  
AMBITION FLAPPER.

Yes, I think you may as well cross him out, as he doesn't seem to be exactly eating his heart out for love of you, does he?

In Doubt: You certainly did not do wrong, dear. It was perfectly right and proper. I hope you will be very happy.

"Dear Mrs. Lee: For some time I have been reading your 'Living and Loving,' although I have never written before. However, a certain experience that was described in your department recently was so similar to one I once had that I could not help becoming interested. If you will get me in touch with the girl that signs her name 'Me and My Shadow,' I would be glad to tell her how I underwent a similar experience and came out on top to find life wholly enjoyable."  
"HAPPY GIRL."

I have no way of getting in touch with the girl you speak of, but why not write your experience so we all may know how you found happiness? I am sure that would be most helpful.

CANTON FACES WAR  
OVER AUTO

With the advent of the automobile the transportation situation in Canton, China, promises a war of its own. In the city of 870,000 population, and only 38 miles of modern streets, the 14,000 licensed rickshaws pullers have just about driven sedan chair carriers out of business, but the coming of the automobile has caused the "rickshaws" men to form a union in self defense. Canton has only 420 registered passenger automobiles, besides the 80 official cars of these 364 are owned by garages and rented to the public, constituting Canton's taxi service. Nine of every 10 of these machines are American-made. The organization of the coolies into a union is expected to result in a demand for higher wages to "rickshaws" and garage men that may result in a bitter transportation war that will make the revolution seem tame.

you are, my hearties! Tell me now, fellows, did you ever see a finer Albatross than this one?"  
"At last the bird, knowing his self to be conquered, had given up the fight. Leaving the water he rose into the air like a huge white kite. Then swiftly flapping his wings, he was swiftly and gently pulled down upon the deck."

"HI YAH! YOU ARE CAUGHT, MY FINE BIRD"

"my lad?" cried they. And Captain added:  
"I look to me as if we would go to make the trip without any batrass as our mascot."  
"Nothing daunted Bill, however, he replied:  
"Not if I know it, sir. This is so soon in the game to give up, besides, look at all the fun the boys are having watching me, sirrah, sir, here he comes!" I told you so.  
"Hi, yah! You are caught, my fine bird, and you know it. Why struggle any more and batter your pretty wings. We are going to be good to you and feed you on all the fish you can eat. Easy now! Not so fast! Nothing is going to hurt you, my beautiful one. Up in the air! Over the side! Down on the deck! There!

# Strength Of Central Gridders Remains Mystery

## BOYS WHO GET FIRST CALL WILL AVERAGE 159 POUNDS IN WEIGHT

Athletes Grow Football-Conscious Under Direction Of Coach Wilson; Game With Washington Will Be Real Test Friday.

By PHIL FRAME

HE football situation at Xenia Central High School this fall is more or less a deep, dark secret.

Fans are therefore watching with considerable interest preparations for the opening game with Washington C. H. Friday afternoon at Washington.

With the actual playing season drawing near, Xenians are at last beginning to take things seriously and think in terms of football.

Sore muscles are numbered as the most common souvenirs as Coach Walter L. "Pinky" Wilson's squad of young hopefuls is getting down to brass tacks in preliminary workouts.

Coach Wilson, who teaches the boys how to play this game of kick, throw and run here, has not had much to say about his team.

One thing, however, is certain, the Blue and White squad has plenty of boys who know their way about the gridiron and are football wise from previous years of experience.

This is particularly true of the backfield. Xenia's captain-less eleven this fall will have a more versatile and finished backfield, which is expected to offset in a large measure, a definite loss of strength in the line.

All of which may mean that Xenia Central may be a whiz-bang this fall or it may not.

## ENJOYS GLORIOUS HEALTH; GLAD TO INDORSE KONJOLA

States That New Medicine Goes To Source Of Stomach And Kidney Troubles.

This celebrated Konjola medicine helps Nature restore the stomach, liver, kidneys and bowels to a more healthy, normal action. Most of the common disorders of the important functional organs have been conquered by this new

compound. The people of Xenia are strongly endorsing it. Over a hundred testimonials have been received within a few short weeks, all from men and women in this vicinity, and the Konjola Man at the Gallaher Drug Store, 33 East Main St., this city, is kept busy throughout each day expounding this remarkable remedy to local people. One of the latest endorsements came from Mr. J. E. Robertson, R. F. D. No. 1, New Burlington, Ohio, a short distance from Xenia, who made the following statement:

"Konjola is a medicine of exceptional merit and I sincerely recommend it to anyone who suffers from the common ailments," said Mr. Robertson. "It has worked wonders in my case and I have every right to endorse it."

"For fifteen long years I suffered from stomach trouble. It is impossible to fully describe the intense misery I endured. During all that time I faithfully took all medicines recommended to me but I guess my case was too far gone because none of them ever gave the slightest relief. As the years went by the trouble spread until my kidneys and bowels were affected. My nerves were unsteady and under the strain and my whole physical condition became rundown. Night after night I failed to get my rest and during the day it was practically impossible for me to even drive an automobile. To say that I was discouraged is putting it mildly. I had given up hope and became convinced that my health would never change."

"I had heard and read a great deal about Konjola. Finally I yielded to persuasion and tried one bottle. Of course I did not even think this would help me. But to my amazement there seemed to be a difference in my condition—I could not understand it but I gave the credit to Konjola and continued the treatment. With each passing day I noticed an improvement and now I have completed the last bottle of a treatment. Konjola has surely done the work and I feel like a different person. I am able to eat anything I desire—even to the extent of sweet stuff—something that always acted as poison to my system. I sleep through the entire night and get up feeling refreshed and full of life energy. Since my stomach has regained its normal condition my bowels and kidneys stopped causing any trouble. It is for this reason that I want to convey to all sufferers the conviction that Konjola is a medicine of real merit."

The Konjola Man is at the Gallaher Drug Store, 33 East Main Street, Xenia, where he is daily meeting the public and explaining the merits of this medicine.

## BAYLIFFS LOSE TO SOUTH VIENNA NINE

Encountering more opposition than they bargained for, the Bowserville Bayliffs found themselves swamped under a deluge of base hits and were defeated by South Vienna 14 to 2 Sunday afternoon at Jamestown.

South Vienna, champions of Clark County, literally bunted the home team to death. Alternating long blows with perfect bunts, the visitors had the Bayliffs at sea all the time and won an easy victory.

The Bayliffs expect to play the Xenia Indians at Jamestown next Sunday.

## TOOK ADVICE OF HER MOTHER

Praises Lydia E. Pinkham's Vegetable Compound

Wetmore, Colo.—"When I was married 14 years ago I was in bad health for a couple of years and when I tried to do anything I would get tired and worn-out. I have taken Lydia E. Pinkham's Vegetable Compound off and on all these years and have recommended it to hundreds of women. I have given birth to six children and have taken the Vegetable Compound as a tonic before child birth. It has done me worlds of good. My mother had taken it several times and she recommended it to me."—Mrs. JOHN BRASSE, Wetmore, Colorado.

## MAYOR'S COURT

### PAIR ARRESTED

Opposite pleas were entered before Mayor John W. Prugh Tuesday morning by Daniel Hilderbrand and Noah Purdue, this city, arrested Monday night by Patrolman George Robinson for alleged intoxication. Hilderbrand pleaded not guilty while Purdue pleaded guilty. Mayor Prugh made no disposition of either case pending a further inquiry. Police say the pair declared they found some wine in a field while cutting corn.

September 24, 1928  
Editor, Xenia Gazette.

Dear Sir:

We do not wish to weary the reading public with too much publicity regarding our drive on Thursday of this week, for funds to furnish warm, noonday meals to our underprivileged children. However, we feel that certain points should be made very plain.

In the letter of Dr. R. R. McClellan, published a few days ago, he, while commending our work, suggests that it might be better if we join the other charitable organizations of the city in one big drive to secure all necessary funds. We have no wish nor disposition to appear exclusive or selfish in this respect, but we are an auxiliary of the state and national P. T. A. and the by-laws prohibit our joining with any other organization in our drives. This is explained by the fact that we are not a charitable but an educational organization; we do not do general work, but only among the children in our schools. All our work is done by our mothers, and so there is no overhead expense—every penny that is donated being spent for the children.

The following statement of our activities during the past school term may be interesting:

Cash on hand, September 1, 1927, \$58.77; cash received from drive, \$1,656.53; total \$1,715.30.

Cash paid for lunches served to undernourished children, \$932.80; cash on hand, Sept. 1, 1928, \$132.50; total \$1,115.30.

We are justly proud of this record, and we feel that this project is deserving of the support of all who have at heart the welfare of the underprivileged child; and we feel that the serving of noon lunches to these children should be encouraged. This splendid plan will do more for the children of our city than any other general measure on the part of the public.

Yours truly,  
Elizabeth T. Stout,  
Publicity Director, P. T. A.

## SQUIRREL SEASON TO ROTARY CLUB SAYS FAREWELL TO MYLER

A farewell talk to Dr. T. P. Myler, who has resigned his position as resident physician at the O. S. and S. O. Home, on behalf of the Rotary Club, was delivered by Dr. H. B. McElree, member of the club, at the luncheon meeting of Xenia Rotarians, Tuesday at the Elks' Club.

Dr. B. R. McClellan also spoke briefly, expressing the members' regret in having Dr. and Mrs. Myler leave the city and presented the departing physician with two bouquets of roses, one for himself and the other for Mrs. Myler.

The club approved the constitution of the Civic Clearing House, among the business matters presented at the meeting.

## COMMITTEES WILL CONSIDER AIRPORT POSSIBILITY HERE

Joint committees of the Greene County Auto Club and the Xenia Retail Merchant's Association are to investigate the possibility of location of an airport in Xenia.

Discussion of the feasibility of establishing a flying field here featured a recent meeting of the merchant's organization and ended in appointment of a committee, which will co-operate with the auto club committee in learning what sentiment prevails among Xenians and civic bodies for the project.

The merchant's committee is composed of H. L. Sayre, chairman, and Fred Lanz and W. H. Donges. They will work with the auto club committee, consisting of R. A. Kelly, C. W. Murphy and Theodor G. White.

Three men connected with aviation, one an airplane builder from Dayton, and two from Osborn, are interested in an airport for Xenia, having in mind the organization of a school of aviation, thus giving Xenians an opportunity to learn to fly.

If a suitable landing field is available near the city, they wish to lease a seventy-five-acre tract.

## GRID CAPTAINS

EDDIE BURKE

Ed J. Burke, who played left tackle on the Navy team last fall, is captain of the Middles this season.

Weighing only 175 pounds, Burke put up a great game in the last year. He is strong and active and did a lot of breaking through and tackling last season.

In addition to his ability as a football player, Ed has built up quite a reputation as a boxer in the 175-pound division. Spike Webb, coach of the Middle boxers, believes Burke to be about the best light-heavyweight ever to attend the academy.

Burke succeeds Ed Hannagan of Washington, as leader. His home is in Wilkes-Barre, Pa.

Bob Ashbjornson, hard hitting Akron catcher, has been grabbed by the Red Sox.

# The Theater

Lovers of the legitimate, who missed the faces and performances of some of the outstanding shows last season, because the Victory, Dayton, was closed to road shows, are again rejoicing with announcement that the former plan will be resumed this fall and winter.

And they have good reason to rejoice, for the shows promised for audiences from Dayton and surrounding cities this season are of the first water and excellent casts are promised.

The theater will open for the winter season September 30, with "Simba" the mammoth wild animal picture, as the initial attraction.

Julia Marlowe, prominent Shakespearean actress, is among the first actresses accepted as a platform speaker by the Democratic national committee.

The picture was taken in the jungle by Mr. and Mrs. Macdonald Johnson, on a four-year exploration trip. "Simba" will offer an opportunity for local people to hear the newest of sound devices for pictures, "The Dilettante" with musical accompaniment and descriptive lecture by Martin Johnson.

Following will be "Wings" one of the outstanding pictures of the year, now equipped with sound devices. The picture has created a sensation over the country. But now for the legitimate offerings—"Blossom Time" the charming love story of Franz Schubert, will be the first stage offering.

Then comes "Keep Shuffling" famed Negro show. Miller and Lyles head this company of speed dancers and singers. It comes to Dayton after an extended run in New York. This will be followed by the New York Theater Guild production "Porgy" with the original Negro cast. Since the play opened in October it has held its lead as one of the best plays on Broadway.

## VIRTUES OF ANNUAL SCHOOL DRIVE HERE URGED BY HAMMERLE

A little curly head peeped above the blanket on a cot in the office of a Xenia city grade school. Two blue eyes which did not shine but instead "seemed to express indifference glanced up and then closed.

"What is the trouble here?" the principal was asked.

"Well, I do not just know," was the thoughtful reply. "This youngster when asked about breakfast described an ideal meal of hot cereal fruit and cocoa—but I know that was just to protect the reputation of the impoverished home and parents. This child, I believe, is just too hungry to sit up in the classroom seat," declared the principal.

What citizen of Xenia would not share his or her breakfast with this youngster to bring back that needed strength and the shine to those blue eyes? The Parent-Teacher Association drive on September 27 for \$1,000.00 is just for that purpose—that the folks of the community may have some share in feeding and clothing the undernourished and under-clothed boys and girls. Not a cent will be spent for any other purpose. The money will be expended by the P.T.A. officials.

True it is that the negligence and worthlessness and lack of some parents cause this suffering. But who would make the innocent children suffer for errors and sins of the parents? A committee of the P.T.A. will check all the families whose children are cared for to prevent dishonest people and professional beggars taking advantage of the funds.

The children to be fed are sent at noon by the principals to the cafeteria in Central High School where a warm lunch is served them at a cost to the P.T.A. of fifteen cents.

The failure of a child to do satisfactory school work is always a tragedy. When a boy or girl is unable to do his school work because of hunger a serious injustice is being done the child. What adult with a youngster who could as a result go to school and get his reading, writing and arithmetic?

The drive of the Parent-Teachers Association is to get a fund to be used in feeding these undernourished children. All the money will be expended by the officers of the P.T.A. to those children they know to be worthy of aid.

## "Wear Black and Keep 'Em Guessing"

"Love is the dessert in the meal of life—as light as a soufflé, and you can't live on soufflés." That's one of the points made by Peggy Hopkins Joyce in advising her sisters concerning the game of love. Another hint from the much-married Peggy is, "Just keep them wondering; it is better to have illusions than a shattered romance." She tells the girls to wear black as much as possible, and, in the matter of makeup, "gild the lily, but don't make it glitter."

## AMERICAN LEGION TO GATHER NEAR CRADLE OF TEXAS LIBERTY

SAN ANTONIO, Tex., Sept. 25.—In the shadow of The Alamo, most sacred of all war shrines to Texans, America's participants in the World War will assemble here October 8 for the 19th annual National Convention of the American Legion.

The Alamo, known to Texans as the "Cradle of Texas Liberty," has been carefully preserved. A visit to the Lone Star State is considered incomplete without a visit to the building in which Texas' first major battle against Mexico was fought on March 6, 1836, four days after Texas declared its independence.

An attendance of more than 75,000 is anticipated at the convention, according to the local housing committee. More airplanes will be used by visiting legionnaires for this convention than at any previous one. Reports of flight parties have been received from New York, Brooklyn, Mass., Cincinnati, Cheyenne, Kankakee, Ill.; Clearfield, Pa.; Los Angeles, and Columbus.

Whereas the defenders of The Alamo, all of whom were slain, had only muzzle-loaders, the convention here will devote much of its attention to the most modern method of combat—airplanes. Efforts are being made to mobilize 1,000 airplanes here during the convention.

Col. Charles A. Lindbergh has accepted an invitation to be one of the principal convention speakers. He is expected to emphasize the importance to the nation of an adequate aerial defense.

With Brooks and Kelly fields located nearby, San Antonio is one

of the aviation centers of America. Hundreds of army fliers are trained at these two fields annually. All planes stationed at these two fields and at Fort Crockett, near Gravesend, Tex., will participate in the aerial program planned for the convention. Many of the planes participating in the recent national air races also are expected to be here.

The government of Cuba, Canada and Mexico will send squadrons of airplanes to the convention. The War Department has been requested to order all World War pilots still in army service to San Antonio for a reunion of war pilots.

Canada will lead the parade by

virtue of its increased American Legion membership. The next three states in line, determined by the per cent of increase in membership during the past year, will be Alabama, Louisiana and Mississippi.

## Corn Brings More Money "on the Hoof"

THE best authorities agree that "hogging down" corn is a profitable practice. Run out temporary fences through your corn and turn in your hogs. They are the best of harvesters—never miss an ear. You save the cost of husking, hauling, cribbing and feeding and get your hogs to market quicker and in better condition.

And for these temporary fences, as well as for permanent fences, use Red Top steel posts. These can be driven at the rate of 200 to 300 a day, through the hardest soil, by one man using the One Man Driver. Are easily withdrawn and re-driven in a new location.

## Red Top Steel Fence Posts

You will save a lot of fence making and repairing time every year if you repair old fences and make new ones with Red Top Steel Posts. Any fence erected on Red Tops is there sound and secure for many years of service and enables you to practice the modern program of crop diversification and clear more money from your farm.

Stop in and handle a Red Top post. Let us show you why it is a better steel post.
